19608.1. If during any fiscal year there is apportioned to the "Child Care Center Fund" more or less than the amount to which the fund was entitled, the Superintendent of Public Instruction during the next or any succeeding fiscal year shall withhold from, or add to, the apportionment during such next or succeeding year, the amount of such excess or deficiency.

SEC. 11.5. Section 19610 of said code is amended to read:

19610. The said governing board shall employ in [or for] *positions pertaining to the care and guidance of children or supervision of a child care [center] program only such persons who hold permits authorizing the service, issued by the Superintendent of Public Instruction. Other employees are not required to hold permits, except that employees handling food or working daily in direct contact with*

children, and who are not required by district regulation or public health requirements to have physical examinations, shall obtain valid permits of the appropriate type. Each person employed by the governing board of a school district for a position requiring a permit shall, not later than 60 days after the date fixed by the governing board of the district for the commencement of his service, file with the county superintendent of schools a valid permit issued on or before said date, authorizing him to serve in the positions for which he was employed, and must, not later than 60 days after the renewal thereof, file the renewed permit in the same manner.

SEC. 12. Section 19611 of said code is amended to read:

19611. [No] Each person employed by a school district in a child care center under the provisions of this chapter shall be deemed for all purposes, including retirement, to be a person employed by [a] the school district in a position not requiring certification qualifications [or employed in a status requisite for membership in the State Teachers' Retirement System or district retirement system, or], except that he shall not be [an employee] subject to the provisions of Article 5 of Chapter 13 of Division 7 of this code.

SEC. 13. Section 19611.3 is added to said code, to read:

19611.3. Each person employed by a school district on the date this section becomes operative who was theretofore excluded, solely by reason of the provisions of Section 19611 in effect prior to that date, from membership in any retirement system in which the district participates or to which it contributes for the purpose of providing retirement rights and benefits for employees of the district not employed in a status requisite for membership in the State Teachers' Retirement System, shall become a member of the retirement system from which he was so excluded, on the date this section becomes operative. Every such member shall be entitled to credit for service in child care centers previously rendered, in the same manner as if he had not theretofore been excluded from membership in the retirement system, except that he shall not be required to make any contributions to the retirement system in respect to such service rendered prior to his membership, and all contributions necessary to provide benefits on account of such service shall be paid to the retirement system by the school district by which the member is employed.

SEC. 14. Section 19613 of said code is amended to read:

19613. The State Department of Education is hereby authorized to accept funds from the Government of the United States and to apportion them to the governing board of such school districts as conduct child care centers which are hereby authorized to accept such funds or funds from any other source for any of the purposes of this chapter and all such funds may be accepted subject to such conditions as will further the purposes of this chapter. [The State Department of Education shall report to the Legislature at the beginning of the 1952 Budget Session its estimate of the amount necessary for the continuance of this program to its terminal date June 30, 1953, and its recommendations for the expansion or modification of the child care program.]

SEC. 15. Section 19614.1 is added to said code, to read:

19614.1. Any unencumbered balance remaining in a district "Child Care Center Fund" may be deposited in the General Fund of the school district one year after the discontinuance of its child care center program pursuant to Section 19614 or Section 19618.

SEC. 16. Section 19620 of said code is repealed.

SEC. 17. The sum of four million five hundred thirty-five thousand eight hundred dollars (\$4,535,800) is hereby appropriated out of the General Fund in the State Treasury to the Department of Education to be used for support of child care centers until June 30, 1956, of which amount not more than twenty thousand dollars (\$20,000) shall be used for the cost to the department in administering this act.

The department shall make apportionments to school districts from the money appropriated for child care centers on or before July 1 of the year for which appropriated and on or before January 1, and April 1. The amount of any apportionment shall be based on estimates made by the department of the total number of hours of attendance of children in the centers for the period commencing on the date such apportionment is made until the date for the next apportionment, or in the case of the apportionment for April 1st, until June 30th. The amount of each apportionment for each school district maintaining child care centers shall be not more than the estimated amount of state support per hour based on the computation provided for in Section 19607.4 of the Education Code, and in accordance with the estimated fees to be collected under the fee schedule as provided in Section 19607.2. If the amount of the apportionments made to a school district exceeds the amount that would have been apportioned had such apportionment been based on actual rather than estimated attendance, the school district shall repay to the department the amount of such excess from any available funds of the district and such amount is a charge against such funds. Such repayment shall be made on or before the next July 15th, and the department may use such repayments to make payments to a school district in an amount not to exceed the amount by which the apportionments to such district were less than the amount which would have been apportioned to such district had such apportionment been based on actual rather

than estimated attendance. Such payments shall be made on or before July 30th of the same year.

SEC. 18. This act shall become operative on July 1, 1955.

SEC. 19. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect, to become operative July 1, 1955. A statement of the facts constituting such necessity is as follows:

To prevent the closing of established child care centers and the consequent disruption of the economic life of the State by the withdrawal from industry, essential during this troubled and unsettled time, of parents and others responsible for the care of minor children, it is necessary that public funds be made available for financial assistance to child care centers where a demonstrated need for such centers can be shown so that parents who are engaged or hereafter engaged in work may have assurance of proper care for their minor children during the hours of their employment or for the proper care of children one of whose parents may be incapacitated by illness or other disability."

"SECTION 1. Part 5 is added to Division 2 of the Water Code, to read:

**PART 5. RECORDATION OF WATER EXTRACTIONS AND DIVER-SIONS**

4999. The Legislature finds and declares that by reason of the combination of light rainfall, concentrated population, the transition of considerable areas of land from agricultural use to urban use, and the large dependence on underground water supplies which prevails in the Counties of San Diego, Orange, Riverside, San Bernardino, Los Angeles, Ventura and Santa Barbara, together with the fact that most such underground water supplies are overdrawn, it is necessary that the provisions of Water Code Sections 5000 to 5009, inclusive, apply to said counties only.

5000. As used in this Part 5, the following terms shall have the respective meanings stated below, viz.:

(a) "Ground water" means water beneath the surface of the ground, whether or not flowing through known and definite channels.

(b) "Surface water" means water on the surface of the ground, and water in subterranean streams flowing through known and definite channels.

(c) "Division" means the Division of Water Resources of the Department of Public Works, of the State of California, and any public body or agency which may hereafter perform the functions now performed by the division.

(d) "Seven counties" means the Counties of San Diego, Orange, Riverside, San Bernardino, Los Angeles, Ventura, and Santa Barbara.

(e) "Person" means all persons whether natural or artificial, including the United States of America, the State of California, and all political subdivisions, districts, municipalities and public agencies of or in either the State or the United States.

(f) "Miner's inch" means one-fiftieth of a cubic foot of water per second of time. 5001. Each person who, after 1955, extracts ground water in excess of 25 acre-feet each year, shall file with the division on or before March 1st of the succeeding year a "Notice of Extraction and Diversion of Water" (hereinafter called "notice") in the form provided below.

5002. Each notice shall be on a form provided by the division. The first notice filed by any person shall state:

(a) The name of the person extracting ground water or diverting surface water.

(b) The quantity of water, as nearly as can be determined, taken by such person or his predecessor in interest in each preceding year from each surface or ground water source, provided that if the period of such taking exceeds 10 years, such person is not required to state such quantities for any period greater than the preceding 10 calendar years.

(c) The location (sufficient for identification) of each surface or ground water source through or by means of which water has been taken, and if any person or persons other than the person filing said notice claims any interest in such source or the right to extract water therefrom, the name or names, so far as known, of such other person or persons.

(d) The sections or lots (according to governmental survey) in which such water has been used.

(e) Water diverted by such person from surface water shall be stated in terms of miner's inches, but such person need not report surface water diversions unless the total diversions exceed three miner's inches.

(f) Any other facts which the division may require by general regulation and which tend to prove the facts above required to be stated, the origin of water supplying any ground water source mentioned in the notice, water levels in any such source, or the extent of any ground water basin from which such water is withdrawn.

(g) Any person diverting only surface waters and not more than 25 acre-feet of ground water in any year need not file said notice.

Notices, other than the first notice filed, shall state, in addition to the name of the person extracting or diverting such water:

First: The quantity of water taken from each surface and ground water source from which such person received any water in the preceding calendar year.

Second: Location of each such surface and ground water source through or by means of which water has been taken in such preceding year. This may be stated, so far as applicable, by reference to the water sources described in the original notice.

Third: If such person diverts surface waters in excess of three miner's inches, such person shall further state in said notice the period or periods of such diversion, and the maximum and minimum flows so diverted in each period.

Fourth: Any other facts which the division may require by general regulation, and which tend to prove facts above required to be stated, the origin of water supplying any surface or ground water source mentioned in the notice, water levels or flow in any such source, or the extent or origin of the water source supplying the ground water supply from which such water is extracted.

5003. No prescriptive right which might otherwise accrue to extract ground water shall arise or accrue to, nor shall any statute of limitations operate in favor of any person required to file such Notice of Extraction and Diversion of Water in regard to such ground water in the seven counties or any of them after the year 1955, until such person shall file with the division the first "Notice of Extraction and Diversion of Water" as above provided; and as to each person who fails to file such notice by the end of the year 1955, it shall be deemed for the period from that time until the first notice of such person is filed, that no claim of right to the extraction of ground water from any such source in the seven counties has been made by such person, and that water so extracted by such person from such ground water source during such period has not been devoted to or used for any beneficial use. After the filing of the first such notice upon the part of any such person, the beneficial use of water from any ground water source within the seven counties in any year by such person shall be deemed not to exceed the quantity reported in the notice filed for such year as above provided.

5004. After the year 1957, failure to file with the division a notice for any calendar year within six months after the close of such calendar year shall be deemed equivalent for all purposes to nonuse for such year of any ground water within the seven counties by each person failing to so file a notice within said period; provided, that this section and Section 5003 shall not apply to any person whose aggregate extractions of ground water do not exceed 25 acre-feet.

5005. Except as specified in Section 5004, failure to file the notice or delay in filing the same shall not cause the loss of rights to ground water which existed on January 1, 1956.

5006. Each notice shall be sworn to and shall be accompanied by a filing fee which shall be fixed by the division. Such filing fees shall be fixed so as to be sufficient on the average to pay the administrative expenses of the division in listing and processing notices of the character presented, and may be graduated in accordance with the number of water sources from which extractions or divisions are shown.

5007. Any person may apply to the division to investigate the facts stated in any specified notice so filed and to state in writing its determination of the facts found by it upon such investigation. The cost of such investigation and determination shall be paid by such applicant by such deposits or in such payments as may be fixed by the division. In the event the division makes a determination which differs in any material respect from the facts contained in the notice, then, prior to making its final determination, the division shall notify both the person filing said notice and the person requesting a determination of facts of its proposed findings, and shall invite either party to submit further information prior to making its final determination, and no such final determination shall be made until sixty (60) days after the parties have been so notified of the division's proposed determination.

In any action or proceeding thereafter pending in which such facts or any of them are material such determination shall be prima facie but rebuttable evidence of the facts so determined.

5008. The making of any willful misstatement in any notice shall be a misdemeanor, punishable by a fine of not exceeding five hundred dollars (\$500) or by imprisonment in the county jail for not to exceed six months, or both.

SEC. 3. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act; and the Legislature would have enacted each section, subsection and sentence hereof independent of each other section, subsection and sentence; and would have enacted such remaining portions and each of them irrespective of such holding of unconstitutionality as any portion which may be held unconstitutional."

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Water Resources.

Senator Breed moved that Senate Bill No. 1147 be withdrawn from Committee on Business and Professions for purpose of amendment, and re-referred to committee.

11013.3. Taxes and assessments levied by public authority shall not be considered a blanket encumbrance within the meaning of Section 11013.

SEC. 5. Section 11013.4 is added to said code, to read:

11013.4. If a subdivision is not subject to a blanket encumbrance, as defined in Section 11013, it shall be unlawful for the owner or subdivider to sell or lease lots

or parcels within a subdivision unless one of the following conditions is complied with:

(a) The entire sum of money paid or advanced by the purchaser or lessee of any such lot or parcel, or such portion thereof as the commissioner shall determine is sufficient to protect the interest of the purchaser or lessee, shall be deposited into an escrow depository acceptable to the commissioner or into a trust account acceptable to the commissioner to be held in such escrow depository or trust account until the title or other interest contracted for, whether it be title of record, equitable or other interest, is delivered to such purchaser or lessee or until (1) either the owner or subdivider or the purchaser or lessee may default under their contract of sale or lease and a determination is made as to the disposition of such moneys; or (2) the owner or subdivider orders the return of such moneys to such purchaser or lessee.

(b) A bond to the State of California is furnished to the commissioner for the benefit and protection of purchasers or lessees of such lots or parcels, in such amount and subject to such terms as may be approved by the commissioner, which shall provide for the return of the moneys paid or advanced by any purchaser or lessee, for or on account of the purchase or lease of any such lot or parcel in the event that the owner or subdivider does not, within the time specified in his contract to sell or lease, or any extension thereof, deliver the title or other interest contracted for, whether it be title of record, equitable or other interest, to such purchaser or lessee for any reason other than an uncured default of such purchaser or lessee.

(c) An association, approved by the commissioner, files with the commissioner a certificate in which it certifies that the owner or subdivider is a member of such association and that there is on file with the commissioner a bond, of the kind specified in subdivision (b) of this section, which has been approved by the commissioner as to amount, terms and coverage, and which is for the benefit and protection of all purchasers and lessees of subdivided lots or parcels to be sold or leased by members of such association (all of which the commissioner may, at his option, verify or require to be verified). The commissioner may also, from time to time, require an increase in the amount of such bond as a condition to the continued applicability of the provisions of this subdivision to such association and its members or permit a decrease in the amount thereof.

(d) Proof, satisfactory to the commissioner, is furnished: (1) that such bonds or deposits, as provided or contemplated to be filed or made pursuant to the provisions of Articles 8 and 9 of Chapter 2, Part 2, Division 4 of this code, have been filed or made in such amounts as the commissioner shall approve, or that the filing or making of such bonds or deposits are unnecessary; and (2) that a lien and completion bond or bonds, approved by the commissioner as to amount, terms and coverage and including within its scope all on-site construction work to be undertaken on such lots or parcels, has been written and issued by a corporate surety company authorized to do such business in this State; provided, however, that this subdivision shall apply only to an owner or subdivider who proposes to sell or lease such lots or parcels with improvements thereon in the nature of residential or other structures.

(e) The entire sums of moneys paid or advanced by the purchasers or lessees of such lots or parcels, or such portion thereof as the commissioner shall determine is sufficient to protect the interest of the purchaser or lessee, shall be deposited into an escrow depository or other agency, acceptable to the commissioner, to be held, in whole or in part, by such escrow depository or other agency as provided by subdivision (a) of this section, or, at the election of the owner or subdivider, to be disbursed, in whole or in part, for the construction of residential or other structures to be built on such lots or parcels within said subdivision, or such unit or units thereof as the commissioner shall determine, in such manner and pursuant to such instructions as the commissioner shall approve; provided, however, that the provisions of this subdivision shall apply only to an owner or subdivider who proposes to sell or lease such lots or parcels with improvements thereon in the nature of residential or other structures.

(f) There is conformance to such other alternative requirement or method which the commissioner may deem acceptable to carry into effect the intent and provisions of this part.

SEC. 6. Section 11013.5 is added to said code, to read:

11013.5. The public report of the commissioner, when issued, shall indicate the method or procedure selected by the owner or subdivider to comply with the provisions of Sections 11013.1, 11013.2 or 11013.4."

The request shall be in writing and shall state the subject matter on which a hearing is desired.

25809. Upon the filing of a request for hearing as provided in Section 25808 the district board shall fix the time and place for hearing. The time fixed shall not be less than 15 days nor more than 60 days from the date such request is filed. Notice of such hearing shall be published by the board.

25812. Oral evidence shall be taken only on oath or affirmation. The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious business affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in a civil action. Hearsay evidence may be used for the purpose of supplementing or explaining any direct evidence but shall not be sufficient in itself to support a finding unless it would be admissible over objection in a civil action.

25813. The attorney for the district shall be present at the hearing and shall advise the board on matters of law, and shall render such other assistance as may be requested by the board.

25814. A complete record of all proceedings and testimony before the board at such hearing shall be taken down by a reporter appointed by the board. In case an action is brought to review any decision of the board, a transcript of such testimony, together with all exhibits or copies thereof introduced, together with the written request for hearing and other proceedings in the cause shall constitute the record on review; provided, however, that the board and other parties may stipulate in writing that a specified portion of the evidence be certified to the court for judgment and in such case the portion of the evidence specified and the stipulation specifying such evidence shall be the record on review.

25815. Within 30 days after submission of the case the board shall render its decision in writing together with written findings of fact. Copies of the findings and decision shall be sent forthwith to the petitioners and intervenors by registered mail, postage prepaid.

25816. Within 40 days after the mailing of the decision to the petitioner, the petitioner may apply for a writ of mandate in the manner provided in the Code of Civil Procedure. The complete record of the proceedings, or such parts thereof as are designated by the petitioner, shall be prepared by the district and shall be delivered to the petitioner within 30 days after a request therefor, upon payment of the expense of preparation and certification thereof."

*Hon. Harold J. Powers*  
*President of the Senate*

DEAR MR. PRESIDENT: This is to certify that the following resolution has been certified by the County Clerk of the County of Los Angeles and forwarded to the Senate under date of March 22, 1955:

#### *Resolution re Assessment Equalization*

WHEREAS, Chapter 1466 of the Statutes of 1949 threatens wholesale and automatic reductions in the assessed value of public utilities and other state assessed properties in the County of Los Angeles; and

WHEREAS, Such reductions would, under the provisions of the aforesaid chapter, shift the amount of these public utilities tax reductions to homeowners and other taxpaying groups; and

WHEREAS, The operation of this chapter could endanger the whole fiscal organization of this county and would strike a hard blow at the principles of equalized assessments and home rule in government; and

WHEREAS, The County Supervisors Association of California and the State Association of County Assessors, after long and careful study, continue to oppose this legislation; and

WHEREAS, This law, first enacted in 1949, has been suspended by the State Legislature from time to time, but unless repealed this year, will become operative on July 1, 1955; now, therefore, be it

*Resolved*, That this Board of Supervisors hereby expresses its opposition to Chapter 1466 of the Statutes of 1949, and urges its repeal, and the substitution for it of proper statutory procedure providing for intercounty equalization of locally assessed property only; and, be it further

*Resolved*, That copies of this resolution be sent to our representatives in the Legislature, to the Chairman of the Revenue and Taxation Committees of the Senate and of the Assembly, and to the Secretary of the Senate and the Chief Clerk of the Assembly.

WATER PROJECT AUTHORITY OF THE STATE OF CALIFORNIA  
SACRAMENTO, CALIFORNIA, March 30, 1955

*Hon. Joseph A. Beck*  
*Secretary of the Senate*  
*State Capitol*

DEAR MR. BEEK: Pursuant to the directive of Section 4 of the Abshire-Kelly Salinity Control Barrier Act of 1953, the following two reports are transmitted herewith:

"Report to the Water Project Authority of the State of California from Board of Consultants on Salinity Control Barriers in San Francisco Bay Region," March 12, 1955.

"Report to the Water Project Authority of the State of California on Feasibility of Construction by the State of Barriers in the San Francisco Bay System," by the Division of Water Resources, March, 1955.

These reports were presented to and considered by the Water Project Authority on March 29, 1955, and the following resolution with respect thereto was unanimously adopted by the authority, and, in accordance with the direction of the authority, is hereby made a part of this transmittal:

"WHEREAS, The Water Project Authority of the State of California was directed by the Abshire-Kelly Salinity Control Barrier Act of 1953 to investigate and study the feasibility and economic value of a suitable salinity control barrier or barriers, and public works incidental thereto, at several alternate locations across San Francisco Bay, San Pablo Bay, Suisun Bay, and the Sacramento-San Joaquin Delta; and

"WHEREAS, The authority engaged a board of consulting engineers and contracted with the Department of Public Works, Division of Water Resources, to individually evaluate and report on the bay barrier problem; and

"WHEREAS, The authority has received and reviewed the reports of the board of consulting engineers and the Division of Water Resources; and

"WHEREAS, The report of the board of consulting engineers recommends that " \* \* \* the Biemond Plan be adopted as the long-range solution of the primary problems set forth in the Abshire-Kelly Salinity Control Barrier Act of 1953"; and

"WHEREAS, The report of the Division of Water Resources recommends as follows, that:

"1. Further consideration be given only to proposals to construct closed barriers across the San Francisco Bay system at or upstream from the Chipps Island site.

"2. The Biemond Plan, comprising the Junction Point Barrier Plan and the proposal for flood protection of the Sacramento-San Joaquin Delta, be studied in detail as a possible unit of the California Water Plan.

- "3. The State of California and the United States Bureau of Reclamation immediately study and determine their joint interest in providing an isolated fresh water channel across the delta as a means of curtailing the use of water for salinity control purposes, preventing additional water losses when transfer of greater quantities of water becomes necessary, and eliminating quality degradation and contact with mineralized return flows and connate waters.
- "4. The Congress of the United States and the United States Army Corps of Engineers be urged to include an investigation of the flood control proposals of the Biemond Plan in the flood control survey of the Sacramento-San Joaquin Delta, and in view of the need for early action to preserve the economy of the Delta, that initiation of the survey be expedited.
- "5. The authorized United States Army Corps of Engineers comprehensive survey of the San Francisco Bay area, including a model study, be completed at an early date in order that the harbor and river system may be developed with adequate factual engineering data, and that the survey include Suisun Bay and the Sacramento-San Joaquin Delta.
- "6. Investigation be made of the feasibility and desirability of partially restricting by a filled causeway the south arm of San Francisco Bay as a means of reducing the existing tidal ranges therein and for use as a trunk transportation facility."

*"Now, Therefore, Be It Resolved,* By the Water Project Authority of the State of California, that the Legislature be urged to authorize further detailed investigation of the Biemond Plan for the purposes of developing complete plans of the means of accomplishing delivery of fresh water to the San Francisco Bay area; providing urgently needed flood protection to valuable agricultural lands in the delta; conducting subsurface exploration work in the delta and designing the facilities appurtenant to the cross-delta aqueduct; obtaining more complete information on the hydrology of the delta; and studying integration of the recommended project in the California Water Plan; and, be it further

*"Resolved,* That the executive officer be directed to communicate with the Regional Director, Region II, U. S. Bureau of Reclamation and the District Engineer, Sacramento District, U. S. Corps of Engineers, with the objective of ascertaining the joint responsibilities, jurisdictions and interests of the Federal Government and the State of California in accordance with the recommendations of the reports; and, be it further

*"Resolved,* That copies of this resolution and of the reports of the board of consultants and Division of Water Resources, be transmitted to the Governor of California, to both houses of the Legislature, and to the President of the United States, the Chief of Engineers, Department of the Army, the Secretary of the Interior, and to members of the California delegation in the Congress."

Very truly yours,

FRANK B. DURKEE, Director of Public Works, Chairman

"SECTION 1. Section 5085 of the Education Code is amended to read:

5085. Whenever, subsequent to the date on which a conditional apportionment made to a state-aided district becomes final, less than all of such district is included in another district, the Director of Finance shall determine what portion of such apportionment was expended or will be expended for property acquired or to be acquired by the acquiring district. Any determination made by the Director of Finance under this section may be redetermined by him, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to such final cost. The Director of Finance shall promptly notify the State Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor, and the treasurer of the counties having jurisdiction over said districts of each determination and redetermination made by him under this section. No redetermination shall be retroactive nor affect the liability of any school district for any payment or annual repayment, or portion thereof, previously made by or on behalf of such district to the State under the provisions of this chapter.

On and after the date of such change of boundaries, the acquiring district succeeds to and is vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to that portion of the apportionment which the Director of Finance has determined or redetermined under this section was expended, or will be expended, for property acquired or to be acquired by the acquiring district, and the unexpended part of such portion of the apportionment in the Public School Building Fund of the state-aided district shall be transferred to the Public School Building Fund of the acquiring district. In addition, and at the same time, the acquiring district shall become liable for the payment to the State of that portion of the annual repayment and all other payments due the State under Section 5057 and other provisions of this chapter with respect to that portion of the apportionment which the Director of Finance has determined or redetermined was expended, or will be expended for property acquired, or to be acquired by the acquiring district.

*For any fiscal year the state-aided district's portion of the annual repayment for a grade level shall not exceed the amount which would be determined if such annual repayment as computed under Sections 5054 to 5057, inclusive, were distributed between the state-aided district and the acquiring district in proportion to the assessed valuation in the remainder of the state-aided district and in the territory transferred to the acquiring district as of the effective date of the transfer. The amount by which the state-aided district's liability for repayment of a portion of an apportionment to a grade level, as determined in the preceding paragraphs of this section, exceeds the amount of the state-aided district's portion of the annual repayment for such grade level, as determined in this paragraph, shall be the "deferred payment" for the fiscal year. The total of such deferred payments shall be added to the amount owed by the district for the apportionment to the grade level. If the total amount owed by the district for the grade level is not repaid before the date provided in Section 5059 for the cancellation of unpaid balances, any remaining amount owed shall be canceled.*

**SEC. 2. Section 7778 of said code is amended to read:**

7778. Whenever, subsequent to the date on which a conditional apportionment made to a state-aided district becomes final, less than all of such district is included in another district, the Director of Finance shall determine what portion of such apportionment was expended or will be expended for property acquired or to be acquired by the acquiring district. Any determination made by the Director of Finance under this section may be redetermined by him, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to such final cost. The Director of Finance shall promptly notify the State Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor, and the treasurer of the counties having jurisdiction over said districts of each determination and redetermination made by him under this section. No redetermination shall be retroactive nor affect the liability of any school district for any payment or annual repayment, or portion thereof, previously made by or on behalf of such district to the State under the provisions of this chapter.

On and after the date of such change of boundaries, the acquiring district succeeds to and is vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to that portion of the apportionment which the Director of Finance has determined or redetermined under this section was expended, or will be expended, for property acquired or to be acquired by the acquiring district, and the unexpended part of such portion of the apportionment in the state school building fund of the state-aided district shall be transferred to the state school building fund of the acquiring district. In addition, and at the same time, the acquiring district shall become liable for the payment to the State of that portion of the annual repayment and all other payments due the State under Section 7729 and other provisions of this chapter with respect to that portion of the apportionment which the Director of Finance has determined or redetermined was expended, or will be expended for property acquired, or to be acquired by the acquiring district.

*For any fiscal year the state-aided district's portion of the annual repayment for a grade level shall not exceed the amount which would be determined if such annual repayment as computed under Sections 7726 to 7729, inclusive, were distributed between the state-aided district and the acquiring district in proportion to the assessed valuation in the remainder of the state-aided district and in the territory transferred to the acquiring district as of the effective date of the transfer. The amount by which the state-aided district's liability for repayment of a portion of an apportionment to a grade level, as determined in the preceding paragraphs of this section, exceeds the amount of the state-aided district's portion of the annual repayment for such grade level, as determined in this paragraph, shall be the "deferred payment" for the fiscal year. The total of such deferred payments shall be added to the amount owed by the district for the apportionment to the grade level. If the total amount owed by the district for the grade level is not repaid before the date provided in Section 7732 for the cancellation of unpaid balances, any remaining amount owed shall be cancelled. "Annual repayment," as used in this section, refers to repayment computed under Sections 7726 through 7729 and excludes amounts by which annual repayments from the state-aided district may be increased under the provisions of Section 7724.1, and amounts for which the state-aided district is liable under the provisions of Section 7714.1. Whenever a site for which repayments are being made under Section 7714.1 is transferred to an acquiring district the acquiring district shall be liable for the repayments required under Section 7714.1.*

**SEC. 3.** This act shall apply to computations of annual repayments of school districts and deductions from State School Fund apportionments made during the 1955-1956 Fiscal Year and each fiscal year thereafter. If, under this act, the annual repayment and deduction of a district for the 1955-56 Fiscal Year would be different than that previously computed for such fiscal year, the Controller shall recompute such annual repayment and deduction and, on or before September 1, 1955, notify the governing board of the district and the other officers referred to in Education Code Sections 5062 and 7735 of the amount to be deducted as recomputed pursuant to this act.

**SEC. 4.** This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the existing law upon the change in boundaries of a district receiving state school building aid, the amount of repayment which the district makes on such aid is reduced in proportion to the amount of the state aid which was used for facilities which the district loses as a result of the change of boundaries. This type of reduction is insufficient and inequitable to the district and the taxpayers thereof where the percentage of assessed valuation lost by the state-aided district as a result of the change of boundaries is much greater than the percentage of state aid financed facilities lost by the district. In order to ameliorate this unfair

burden on the taxpayers of such districts to avoid jeopardizing the whole school program of such district during the 1955-1956 Fiscal Year it is necessary that this act take effect immediately."

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Education.

#### Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1387:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

Sacramento, March 25, 1955

To the Honorable Members of the Senate  
Sacramento, California

GENTLEMEN:

**Senate Bill No. 1387**, "An act to repeal Chapter 9 of Division 2 of the Business and Professions Code; Divisions 15 and 22 of the Health and Safety Code; Chapter 8, Division 8 of the Business and Professions Code, and to add Chapter 9 to Division 2 of the Business and Professions Code, relating to pharmacy,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill recodifies the pharmacy law of the State of California. I am advised that it, in fact, makes no new appropriation of money. It is necessary that this bill be passed as early in the session as possible in order that the law in the new form will be on the books and it will then be possible to consider subsequent changes in the pharmacy law at the present session of the Legislature.

I therefore recommend consideration of Senate Bill No. 1387 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

"Sec. 14. The board must estimate and determine the amount of money necessary to be raised to construct or purchase necessary works and acquire the necessary property and rights therefor and otherwise carry out the provisions of this act.

For the purpose of ascertaining the amount of money necessary to be raised for such purposes, or any of them, the board shall cause such surveys, examinations, drawings and plans to be made as shall furnish the proper basis for said estimate.

*The surveys, examinations, drawings, plans, and estimate may provide that the works necessary for a completed project may be constructed progressively during a period of years. Such report may cover one or more separate projects or works of improvement all designed to carry out the provisions of this act.*

In the estimate of the amount necessary to be raised, the board may include a sum sufficient to pay the interest on the bonds to be issued for a period of three years or less. All such surveys, examinations, drawings, and plans shall be made under the direction of the engineer of the district and shall be certified by him. After receiving such report the board shall determine and declare by resolution whether or not the proposed plan of work is satisfactory and whether or not the project, as set forth in said report, is feasible, and if so, shall make an order determining the amount of bonds that should be issued in order to raise the amount of money necessary therefor, and in determining said amount, sufficient [shall] *may* be included to cover the cost of inspection of works in course of construction.

SEC. 2. Section 16 of said act is amended to read:

Sec. 16. After the adoption of said report and estimate of the amount of money required to be raised the board shall call a special election and submit to the qualified voters of said district [the] a proposition [ : ] *or propositions of incurring bonded indebtedness in order to carry out the provisions of this act.*

[Shall the district incur a bonded indebtedness for the purpose of providing for the conservation, control and disposition of flood and storm waters of said district and to protect from damage from such storm and flood waters, the waterways, property, public highways, and public places in said district, generating electric energy, and for any other purpose set forth in Section 3 hereof?]

*Several separate propositions of incurring bonded indebtedness may be submitted separately to the voters at the same election if such respective propositions are separately stated in the resolution calling the election and on the ballot to be used at the election.*

The resolution calling the special election shall recite the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief general description of such objects and purposes; and said resolution shall state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor and shall fix the maximum rate of interest to be paid on said indebtedness which shall not exceed 5 percent per annum, and shall fix the date on which the special election shall be held and the manner of voting for and against the incurring of such indebtedness.

For the purpose of said election, the board shall, in its resolution, establish election precincts within the boundaries of said district, and may form election precincts by consolidating the precincts established for general election purposes in said district to a number not exceeding six for each such bond election precinct, and shall designate a polling place and appoint two inspectors, two judges and two clerks for each of such precincts.

In all particulars not recited in such resolution, such election shall be held as nearly as practicable in conformity with the general election laws of the State.

At such election all persons whose names appear on the last great register of County of Sonoma as residing within the district shall be entitled to vote, except as hereinafter otherwise provided.

Such resolution calling such election shall be published once a day for at least seven days, in some newspaper published at least six days a week in said district, or once a week for two weeks in some newspaper published less than six days a week

in such district, and one insertion each week for two succeeding weeks shall be a sufficient publication in such newspaper published less than six days a week. No further notice of such election need be given.

Any defect or irregularity in the proceedings prior to the election shall not affect the validity of the bonds.

If at such election, two-thirds or more of the votes are cast in favor of the incurring of such bonded indebtedness, then the bonds of said district, for the amounts stated in such proceedings, shall be issued and sold as provided in this act.

Notwithstanding any other provision of this act, a majority vote shall be sufficient to authorize the issuance of revenue bonds, and a two-thirds vote shall be required only for the issuance of general obligation bonds.

SEC. 3. Section 19 of said act is amended to read:

SEC. 19. Subject to the provisions of this act, the board shall prescribe by resolution the form of the bonds and of the interest coupons attached thereto and shall fix the rate of interest said bonds shall bear, not to exceed 5 percent per annum. *The board may divide any authorized issue into one or more series and fix different dates for the bonds of each such series. The bonds of each such series shall mature serially [in amounts to be fixed by the board, payment of the bonds commencing not later than five years from the date thereof and being completed in not more than forty years from said date] and become payable in not to exceed 40 years from the date of each such series in such amounts as the board may fix; provided, that the earliest maturity of bonds of any series shall not be more than five years from the date of such series. The board shall fix the place, or places (which may be within or without the State of California and which shall be designated in said bonds) where said bonds together with the interest thereon shall be payable.*

Callable bonds may be redeemed in such amounts and manner and at such prices as the board may prescribe by resolution.

SEC. 4. Section 22 of said act is amended to read:

SEC. 22. The district may sell *the whole, or from time to time any part, of the bonds so issued at the times or in the manner the board deems to be to the public interest; provided, that all bonds shall be sold on sealed proposals to the highest bidder after advertising for bids by publication of notice of sale once, not less than 10 days prior to the date of sale, in a newspaper of general circulation circulating in the district. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either readvertise or sell the bonds at private sale. The bonds may be registered with the treasurer in accordance with the provisions of any law applicable to the registration of municipal bonds, and thereafter the principal and interest thereon shall be paid to the proper registered owner thereof.*

SEC. 5. All acts and proceedings taken by or on behalf of the board of the Sonoma County Flood Control and Water Conservation District under the Sonoma County Flood Control and Water Conservation District Act for or in connection with the calling or holding of any election for the issuance of bonds of said district are hereby confirmed, validated, and declared legally effective. This shall include all acts and proceedings of said board and of any person, public officer, board or agency heretofore done or taken upon the question of the authorization of such bonds. If any election has heretofore been called for the purpose of submitting to the voters of the district the proposition of issuing bonds in order to carry out the provisions of said act, such bonds, if authorized by the required vote in accordance with the proceedings heretofore taken, and issued and delivered in accordance with such authorization, shall be the legal, valid and binding obligations of said district.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. A statement of the facts constituting such necessity is as follows:

The peace, health and safety of the citizens of the State require the immediate construction and financing by the issuance and sale of bonds authorized by this act as soon as possible and before this act would otherwise become effective of urgently needed projects or works of improvement provided for under said act. The district requires the immediate construction of projects or works of improvement for water conservation and the control, disposition and distribution of water resources, the cost of which is beyond the means of the property owners and taxpayers of the district so that it is necessary to obtain financial aid from the United States Government therefor. The United States Government has approved the construction of the Coyote Valley Dam project on the Russian River and authorized the appropriation of eleven million five hundred twenty-two thousand dollars (\$11,522,000) for accomplishment of the initial stage thereof, provided the district shall contribute five million five hundred ninety-eight thousand dollars (\$5,598,000) in cash prior to the commencement of construction. In order to make the required immediate

contribution of said sum in order to obtain such financial and other aid from the United States Government, the district must immediately issue bonds under said act as amended hereby."

"It is necessary that a district be formed in Alameda and Contra Costa Counties to meet the transit problem, for the area involved covers more than one city and is in two counties; moreover, the problem is unique to these counties due to their geographic location in relation to the centers of employment of many of their residents. Although a municipal utility district could provide transportation facilities, there is already an existent municipal utility district in part of the area which provides water and sewage disposal to persons who will not necessarily be benefited by the transportation facilities, and if a new municipal utility district is formed, there is a possibility of its becoming merged by operation of law with the existent district, which would result in those persons in the existent district being inequitably

taxed to pay for the transit facilities and those benefited only by the transit facilities being taxed to support the water and sewage disposal functions of the district.

Also, there are existing transportation facilities in the area which may be taken over by the transit district and special provisions relating to this transfer and to the employees of these facilities, as provided for by this division, are necessary to protect the public interest."

SENATE, CALIFORNIA LEGISLATURE  
April 4, 1955

*Hon. Harold J. Powers*  
*President of the Senate*

DEAR MR. PRESIDENT: This is the fifty-fifth calendar day. Upon the conclusion of business on the fifty-fourth calendar day in 1953, we had received from committee 890 bills, given second reading to 696 bills and sent to enrollment 303 bills.

To date this session, we have received from committee 672 bills, given second reading to 514, and sent to enrollment 237. In this respect, we are 66 bills behind our position of two years ago.

If we do not meet on Saturdays and Sundays, we have 48 days remaining in which to complete the work of the session. Assuming that we will pass as many bills this session as we did two years ago (2,331), we will have to dispose of an average of 44 measures per day in order to complete the work on the eighth of June, the 120th day of the session.

Respectfully submitted,

J. A. BEEK, Secretary of the Senate

**RESOLUTIONS**

The following resolution was offered:

By Senator Richards:

**Senate Resolution No. 88**

Relative to requesting the Secretary of the Navy to reconsider the decision to close the San Pedro Naval Supply Depot

WHEREAS, The Secretary of the Navy has announced that the Navy intends to disestablish, on June 30, 1955, the San Pedro Naval Supply Depot, a multimillion dollar facility which, during 1954, furnished some 48 million dollars worth of supplies to 187 Navy, Military Sea Transport, and Coast Guard ships, and to 71 shore establishments; and

WHEREAS, Closing of this vital defense facility will occasion the loss of employment for many of the 850 trained and skilled workers currently employed by the depot and will deal a severe blow to the economy of the San Pedro Harbor area; and

WHEREAS, The current perilous world situation facing our Nation would appear to dictate a strengthening and an increase in our defense facilities and the training of additional workers rather than the closing of facilities and discharging of skilled workers; now, therefore, be it

*Resolved by the Senate of the State of California*, That the Members of the Senate of the State of California do hereby request the Secretary of the Navy to seriously reconsider the wisdom of closing the San Pedro Naval Supply Depot; and, be it further

*Resolved*, That the Secretary of the Senate is hereby directed to prepare and transmit suitable copies of this resolution to the Secretary of the Navy of the United States and to each Senator and Representative from California in the Congress of the United States.

Resolution read, and, on motion of Senator Richards, unanimously adopted.

"Article 6. Consolidation of City and Unincorporated Inhabited Territory

35350. This article may be cited as the Consolidation Law of 1955.

35351. Territory contiguous to a city may be consolidated with a city if the number of inhabitants of all of the area proposed to be consolidated with a city equals or exceeds the number of inhabitants of the city, pursuant to this article. Territory consisting of two or more separate areas contiguous to a city but not contiguous to each other, may, for the purpose of consolidation under the provisions of this article, be deemed one territory, and the total number or inhabitants of all of the separate areas shall be counted as a whole.

35352. Petitions for the consolidation of territory with a city, shall show the date each signature was affixed. Such petition for consolidation may contain a request that the question submitted to the electors shall be whether the city and the unincorporated territory shall be consolidated into a single city and the property in the territory subjected to taxation after consolidation for:

(a) All of the indebtedness of the city existing or authorized at the date of filing the petition.

(b) All of the indebtedness, existing or authorized at the date of filing the petition, of any district in the unincorporated territory which will cease to function if the unincorporated territory is consolidated with the city.

(c) The portion of such indebtedness which the territory separated from any district and so consolidated is obligated to pay.

35353. If the petition is not filed with the required officer within six months of the date on which the first signature was affixed, it is void.

35354. Territory shall not be deemed "contiguous" as the word "contiguous" is used in this article if the only contiguity is based on a strip of land over 300 feet long and less than 200 feet wide exclusive of highways.

35355. Contiguous inhabited territory may be consolidated as one parcel although divided by a road, stream, or other natural or artificial barrier or right of way.

35356. In cities having a planning commission, consent to circulate petition for consolidation shall not be given by the legislative body until it has received a report or recommendation from the commission.

35357. Before any petition is circulated the proponents shall first present a general description of the exterior boundary lines of proposed consolidated area to the planning commission in cities having a planning commission.

35358. If, within 40 days from the date the matter is referred to the commission, the report or recommendation is not filed with the legislative body, it may act without such report or recommendations.

35359. The consent of the city legislative body shall be obtained before any proceedings are commenced pursuant to this article.

35360. After approval by the legislative body to circulate the petition, the description shall be referred to the county boundary commission who shall report to the legislative body and the proponents with respect to the definiteness and certainty of the proposed boundaries.

56361. No petition seeking the consolidation of territory with a city shall be circulated or filed, nor shall any public officer accept any such petition for filing, nor shall any legislative body initiate proceedings to consolidate on its own motion, until the proposal for the consolidation of territory with a city has been submitted to and reported upon to the legislative body of the city by the boundary commission of the county with respect to the definiteness and certainty of the proposed boundaries.

If the boundary commission does not report upon the petition description within 20 days after it is submitted to it, or within such additional time, not exceeding 60 days, as may be granted by the legislative body of the city, the description shall be deemed correct.

35362. Whenever any petition for consolidation is being circulated, all plans for new subdivisions within said territory shall first have the approval of the planning commission of the city.

35363. Before circulating a petition relating to consolidation of territory with a city, the proponents shall publish a copy of a notice of intention to do so pursuant to the Elections Code. The notice shall contain the names of the proponents intending to circulate the petition and the specific exterior boundaries of the proposed consolidated area, and may be accompanied by a printed statement not exceeding 500 words in length, containing reasons for the petition. The original notice of intention to circulated petition shall be filed with the city clerk.

35364. Within 10 days after publication, the proponents shall file a copy of the notice and accompanying statement, if any, and an affidavit of the publishing or posting, with the city clerk.

35365. Within 15 days after such filing, the legislative body may adopt a resolution acknowledging receipt of the notice and approving the circulation of the petition. A petition asking for the consolidation of any portion of the territory described in the notice, shall not be filed with any other city for 50 days after the adoption of such resolution.

35366. Twenty one days after the publication or posting of the notice, and statement, if any, the petition may be circulated among the voters within the area proposed to be consolidated with the city, pursuant to the Elections Code.

35367. When a petition for the consolidation of any new territory with a city has been received by its legislative body, unless and until consolidation with such city has been defeated:

(a) No other petition asking for the consolidation of any of the territory described in the filed petition shall be presented to the legislative body or electors of any other city.

(b) No other legislative body shall submit the question of consolidation of any part of the territory described in the petition to its electors.

35368. Territory as used herein may include any or all streets, highways and roads abutting the area to be consolidated with the city; provided, that if any portion of such territory or street, highway or road is situated within three miles of the boundaries of any other city, the consent of the legislative body of such other city shall first be obtained.

35369. No consolidation shall include a portion of the width of a street or public right of way, but shall include the whole width of such street or public right of way.

35370. Upon receiving a petition signed by not less than one-fourth of the qualified electors residing within the territory, as shown by the county registration of voters, containing a description of the exterior boundaries of the proposed consolidated area asking that the area be consolidated, the city legislative body shall without delay pass a resolution of intention to call a special election giving at least 50 days notice thereof and of its intention to submit the question of consolidation to the electors residing in the unincorporated territory proposed to be consolidated with the city and the city. The city clerk and the county officer having charge of the registration of voters shall within two weeks check the petition and certify the sufficiency thereof.

35371. The resolution shall describe specifically the exterior boundaries of the proposed consolidated areas, and shall designate the area by some appropriate name by which it may be referred, upon the ballots used at the election. It shall contain a notice of the day, hour and place any person owning real property within such territory, or within the city, may appear before the legislative body and show cause why it should not be consolidated with the city.

35372. A hearing shall be held not less than 15 nor more than 40 days after the passage of the resolution.

35373. The city clerk shall cause a copy of the resolution to be published at least once a week for the two weeks prior to the hearing in a newspaper of general circulation published in the territory proposed to be consolidated, and in a newspaper of general circulation published in the city. If no such newspapers are published, a copy of the resolution shall be posted not less than 10 days before the hearing, in at least three public places within the territory, and at least three public places within the city.

35374. At any time not later than the hour set for hearing objections to the election, any owner of property within the territory and the city may make a written protest against the election. The protest shall state in general terms the name of the owner of the property affected and the location and area of the property.

35375. At the time set for hearing protests, or any continuance thereof, by the city legislative body, the legislative body shall hear all protests so made. If it finds that protest is made by the owners of a majority of the separate parcels of the territory, or the city, no further proceedings for the consolidation of any of the territory shall be taken for one year after the finding; provided, however, that the provisions of this section shall not prohibit the annexation within such one year period of any lesser area of said territory to the city under several laws providing for annexation of territory to the city.

35376. The election upon the question of consolidation shall be held at the same time in both the city and all the unincorporated territory proposed to be consolidated, but the ballots cast in the city shall be totaled as one unit and ballots cast in all the unincorporated territory proposed to be consolidated, shall be totaled as a second unit. In order for the proposition of consolidation to carry, a majority of the votes in each unit must be in favor of the consolidation.

35377. If it finds that protest is not made by owners of a majority of the separate parcels of property, the city legislative body shall call a special election without delay and submit to the electors residing in the territory and the electors residing in the city, the question whether such territory shall be consolidated with such city.

35378. The city legislative body shall cause notice of the election to be published at least once a week for the four weeks prior to the election, in a newspaper of general circulation, printed and published outside the city, but in the county in which the territory is situated, and also in a newspaper of general circulation, printed and published inside the city, or if there are no such newspapers, by posting it at least four weeks next preceding the election in three public places within the territory and three public places within the city.

35379. The notice shall:

- (a) State the date of the election.
- (b) State distinctly the proposition to be submitted.
- (c) Describe specifically the outer boundaries of the proposed consolidated areas.
- (d) Designate the name by which the territory may be indicated, upon the election ballots, which shall be that given in the resolution of intention to circulate the petition. Such notice shall also contain the additional matters as set forth in Section 35148 of the Government Code.

35380. When the consolidation has been completed, the property of the consolidated city shall be taxed to pay the indebtedness or liability specified in the notice.

35381. The legislative body shall establish and designate in the notice the voting precincts and the places at which polls will be open for the election. The places shall be those commonly used for voting within the territory, if there are any, and those commonly used for voting within the city.

35382. The legislative body shall appoint two judges and one inspector for each voting place in the territory to be consolidated with the city, as officers. For the conduct of such election such legislative body shall appoint the officers of election in the city in the same manner as for regular municipal elections. Each officer shall be a qualified elector of the voting precinct in which he is appointed to act.

35383. Upon the ballots used at the election shall be printed the words: "Shall (insert name given territory in the notice of election) be consolidated with the City of (stating name of city)?" Opposite these words shall be printed the words "yes" and "no," with a voting square to the right of each.

35384. If an elector stamps a cross in the voting square after the word "yes," his vote shall be counted for the consolidation, and if he stamps a cross in the voting square after the word "no," his vote shall be counted against the consolidation.

35385. Except as otherwise provided, the ballots used, the opening and closing of the polls, and the conduct of the election in both the territory and the city shall conform as nearly as possible with the Elections Code provisions concerning general elections.

35386. Immediately on the closing of the polls the election officers for each polling place shall count the ballots, make up, certify, and seal the ballots and tally sheets of the ballots cast, and deliver them with the returns to the clerk of the city legislative body.

35387. At its next regular meeting held at least three days after the election, the city legislative body shall canvass the returns. The canvass shall be completed at the meeting, if practicable, or as soon as possible, avoiding adjournments.

35388. Immediately upon the completion of the canvass, the legislative body shall cause a record to be entered upon its minutes, stating the proposition submitted, the number of votes cast for and against consolidation.

35389. If a majority of the votes cast both in the city and in the territory on the question is for consolidation, the clerk of the legislative body shall make, certify under seal, and transmit to the Secretary of State, a copy of the record of the canvass in the territory and in the city, with a statement showing the dates of the election, the time and the result of the canvasses and a description of the exterior boundary lines of the consolidated area. Immediately upon receipt of the document, the Secretary of State shall file it, and transmit a certificate of the filing to the clerk of the legislative body, and to the board of supervisors of the county in which the city is situated.

35390. If a majority of the votes cast is against consolidation, a new petition embracing any of the same territory shall not be filed with the same city within twelve months after the result of the election has been canvassed and declared.

35391. Immediately upon completion of the canvass of any municipal election on the question of consolidation, the legislative body shall cause a record to be entered upon its minutes, showing the number of votes cast upon the question and the number cast for and against consolidation.

35392. From the date of filing by the Secretary of State, consolidation is complete, and the consolidated territory is a part of the city.

35393. The consolidated territory and city shall be known as the name of the city unless otherwise voted on at the time of election.

35394. In all other particulars, the consolidation shall be conducted as if there were no question of assuming an indebtedness, or tax liability for municipal improvements already paid for by city taxpayers.

35395. When the consolidation of territory voting to assume such city indebtedness or fixed amount, or both, has been completed, the property within the consolidated territory shall be taxed to pay the bonded indebtedness, or fixed amount, or both as specified in the notice.

35396. The property in any such new territory consolidated after 12 o'clock noon of the first Monday in March and before the completion of the city assessment roll shall be subject to taxation for municipal purposes for the fiscal year following the first Monday in March.

35397. Except as provided in this article, property within such consolidated territory shall not be taxed to pay any indebtedness or liability of the city contracted prior to or existing at the time of consolidation.

35398. Where territory is consolidated with a city divided into wards, or with a city which later divides itself into wards, the legislative body, by ordinance, shall alter the boundaries of the city wards to include the consolidated territory in one or more wards adjoining the territory, or make one or more additional wards out of the consolidated territory. The number of wards shall not be increased to exceed the number which the city is allowed by law.

35399. Any proceeding held pursuant to this article does not alter or affect the boundaries of any senatorial or assembly district.

35400. Consolidation of territory with a city pursuant to this article does not affect, terminate, or invalidate any proceeding pending at the time of such consolidation, under the Drainage District Improvement Act of 1919, or any act relating

to proceedings for the acquisition of lands or rights of way for the use of, or for the improvement of roads, highways, streets, parks, drains, sewers, or other public property, or to proceedings for the opening, widening, extending, or change of grade of streets or other public places. Such proceedings shall be continued by the county initiating them as if the territory affected were not consolidated.

35401. All proper expenses of proceedings for consolidation of territory pursuant to this article, whether such proceedings are completed or not, shall be paid by the city consolidating or attempting to consolidate the territory.

35402. Territory shall not be consolidated with a city pursuant to this article if, as a result of such consolidation, unincorporated territory is completely surrounded by such city."

#### PROCEEDINGS UNDER CALL OF THE SENATE MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, April 6, 1955

*To the Honorable Members of the Senate  
Sacramento, California*

GENTLEMEN: As I pointed out to you in my message of January 3, 1955, the "conservation and development of our water resources is of paramount importance to the people of our State." The problem is also one which calls for action. Such action, in my judgment, should be initiated at the present session of the Legislature. Considering our rapidly increasing population, and looking at the State as a whole, we well may be facing a very serious situation in the not too distant future.

We are all in agreement, I am sure, that there must be a sound and basic plan for the full conservation, control, and utilization of all of the water resources in California, both underground and surface, to meet present and future needs for all beneficial purposes and uses in all areas of the State. I realize, however, that the full implementation of the California Water Plan is a long-range program to which the Legislature will wish to give careful consideration. It will involve, among its many aspects, the determination of an equitable and just solution of the problem involved in the diversion and distribution of surplus waters from areas where they may not be needed to areas of deficiency.

Pending the formulation of such a program, I wish to make the following specific recommendations for action at this session of the Legislature:

1. *Trinity River Project.* The plan of the Department of the Interior for the development of the Trinity project has heretofore been submitted to, and favorably recommended by, the executive branch of the State Government on April 15, 1953.

There is now pending in the Congress legislation to provide for federal construction of this project as a unit of the Central Valley Project. I reiterate my recommendation of last January that the Legislature adopt a joint resolution urging the Congress to take favorable action on appropriate legislation to authorize construction of the project.

2. *San Luis Project.* The confusion that has arisen with respect to the Trinity River Project apparently stems from the fact that the legislation in Congress to authorize the "Trinity River Division" also includes authorization of the so-called San Luis Project, which is also proposed to be made a part of the Central Valley Project, as now operated by the Federal Government. The dam and reservoir on San Luis Creek in western Merced County, which presumably would be main features of the project, have also been studied and included by the Division of Water Resources as a part of the State's Feather River Project.

I am advised that the existing Tracy pumping plant, and portions of the Delta-Mendota Canal, have excess capacity at the present time which could be used to supply water from the Sacramento-San Joaquin Delta for a reservoir on San Luis Creek, at least for an initial development as contemplated by pending congressional legislation. In view of the urgent need for a supplemental supply of water for lands in the San Joaquin Valley which could be served by such a San Luis development, the plan to use this excess capacity of existing facilities of the Central Valley Project appears to me to be logical. On the other hand, any federal development of the project should not prevent the use of the San Luis reservoir site and appurtenant works which will be required for development of the Feather River Project as now planned.

What we need is a cooperative arrangement with the Federal Government whereby immediate construction of the San Luis Project may proceed as a joint federal-state undertaking. Both federal and state legislation, in all probability, would be required to provide for any such cooperative arrangement. I urge that the Legislature memorialize the Congress to authorize such a program, and that any necessary state legislation also be enacted. Such federal and state legislation should provide for implementation of the program by a contract between the State and the Federal Government.

3. *Feather River Project.* The Feather River Project has been authorized by the Legislature for construction by the State as a major unit of our long-range water plan. The plans that have been made for it are state plans, while the plans for the Trinity River Project are federal plans. The flood waters of the Feather River constitute, I am advised, the largest single remaining source of high quality, unconserved water in the Central Valley. This great project is vitally needed, not only for a firm supply of irrigation water, and for flood control on the reaches of the Feather River itself, but also to firm up a supply of water in the delta for transportation and use in the San Joaquin Valley, for a supply to the Santa Clara Valley, and other coastal areas, as well as Southern California.

I repeat the urgent recommendation of my message of last January—that the Legislature take "immediate steps to determine the proper and most effective means of raising the funds necessary for its construction" to the end that initial phases of the project can be gotten under way without delay, to the greatest extent that the Legislature finds it possible to finance at this session.

While such initial work is being undertaken, the Legislature will, I am sure, be conscious of the need for protecting the reasonable water requirements of the counties of origin.

In order that the government of the State may be in a position to act, and to act effectively, on all fronts at all times with respect to water matters, I urge again the creation of a workable State Water Resources Department to be headed by a director, and with clear lines of authority. While it is recognized that this may be a complicated problem, it is my judgment that action should be taken at this session of the Legislature.

The above-mentioned recommendations cover problems relating to water, and its conservation and distribution, which appear to me to be the most pressing at the present time. They are not intended to cover all of the many important related problems and, for that reason, I may transmit further recommendations prior to the adjournment of the present session.

The fact that the Legislature may not find it possible to act on all phases of the water problem in the immediate future, should not deter it from giving prompt attention to those matters on which, I think, we can all agree there should be no further delay.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Message read, and ordered printed in the Journal.

CONSULATE GENERAL OF INDIA  
April 5, 1955

*Lieutenant Governor Harold J. Powers*  
*State Capitol*  
*Sacramento, Calif.*

DEAR LIEUTENANT GOVERNOR POWERS: I write to thank you for the great courtesy with which you received me when I was invited to address the Senate of the State of California on Friday, April 1, 1955. As I said in my address, I considered it a great honor done to the country which I represent in San Francisco, besides being a great personal privilege, to have been invited to address the Senate. Fundamentally, there is a very great deal in common between the ideals of the Republics of the United States of America and of India and the more contact there is, the greater will this awareness grow. May I convey to you and to the Senate my grateful appreciation once again for the great honor done to my country and to me by this thoughtful gesture?

With kind regards,  
Yours sincerely,

S. K. BANERJI, Consul General

SENATE, CALIFORNIA LEGISLATURE  
April 11, 1955

#### *Secretary's Report on Condition of File*

*Hon. Harold J. Powers*  
*President of the Senate*

DEAR MR. PRESIDENT: This is the sixty-second calendar day. We have 59 days left, but if we do not meet on Saturdays or Sundays, we have only 43 days in which to legislate.

We assume that we are going to pass as many bills as we did two years ago. On the corresponding legislative day of last session, we had sent to enrollment 429 bills. This session we have sent to enrollment only 315 bills, so in that regard we are 114 measures behind our position of two years ago. It is apparent that we will have to dispose of an average of 47 measures per day from now on in order to complete the business of the session by June 8th, the 120th calendar day of the session.

Respectfully submitted,

J. A. BEEK, Secretary of the Senate

#### Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 3775:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, March 10, 1955

*To the Honorable Members of the Senate  
Sacramento, California*

GENTLEMEN :

**Assembly Bill No. 3775**, "An act making an appropriation to the Attorney General for investigative purposes, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

The money to be appropriated by this bill is necessary to enable the Attorney General to continue with this investigation concerning the administration of the Alcoholic Beverage Control Act and to bring it to a satisfactory conclusion.

It is desirable that this measure be enacted early in the session, and I therefore recommend its consideration before final action on the budget.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

The President appointed Senators Murdy and Robert I. McCarthy to escort Roger Lauer to the rostrum.

Senator Murdy introduced Mr. Lauer to the Senate, who addressed the Senate as follows:

#### WHY I WANT TO OWN MY OWN HOME

I want to own my own home because it would answer many of my needs.

Since time immemorial most living beings on this fair planet of ours have had a need for a place to live, a place where they could be secure and raise their families. The birds build their nest, the moles burrow their homes deep in the ground, the lions seek safety in their dens, while man seeks shelter in a house.

Down through the ages this desire has never changed. I am not an exception to this natural longing for a home. In 10 or 15 years, I, like millions of others, hope to be able to achieve this dream.

Like my forefathers, I seek safety and protection from natural hazards and a place which will be a haven for me and my loved ones. I am indeed fortunate to live in a land where such things are possible.

Like my fellow man, I must have friends, neighbors, and be part of the community. All these things are mine when I own a home.

From a practical or financial point of view the ownership of a home is also a good investment. When you rent or lease a house and later move out you don't have anything to show for it. When you buy a house you can sell it years later and still get a large portion, if not all of your money back.

I hope some day to own a home. A home where my family and I can relax and be free to do the things we enjoy. For enjoyment and happiness are what make a house a home.

This is why I wish some day to be the proud owner of a home.

#### REASSEMBLED

At 3.18 p.m., the Senate reconvened.

Hon. Harold J. Powers, President of the Senate, presiding.

Indexing Clerk Edward Paine at the desk.

**RESOLUTIONS**

The following resolution was offered:

By Senators Regan, Parkman, Coombs, Robert I. McCarthy, Cunningham, Kraft, Short, Gibson, Busch, Donnelly, Burns, Miller, Thompson, Montgomery, Teale, Cobey, Harold T. Johnson, Berry, J. Howard Williams, Richards, and Dale C. Williams:

**Senate Resolution No. 91****Relative to underground water supply**

WHEREAS, Under the combined impact of continuous population increase and the rapid depletion of underground water supplies, it has become a matter of state and national urgency that the development of California water resources be speeded to the utmost; and

WHEREAS, The needs of population, industry, agriculture and national defense call for immediate action on many California projects now under consideration by both the Congress of the United States and the Legislature of the State of California; and

WHEREAS, Within a 10-year period California increased in population from fifth to second place among the states and it is still growing in a manner unprecedented in national history and with this growth has come industrial as well as agricultural expansion and a new understanding of the importance of California's economic contribution to the national welfare; and

WHEREAS, The basic concept under which California has for many years worked toward the solution of its state-wide water problem has been through the regulated movement of water from areas of surplus supply to areas of water deficiency; and

WHEREAS, Progress under this concept has made necessary detailed studies which have involved both national and state policy, and the magnitude of such projects regularly involves the consideration of flood control, navigation, drainage, irrigation, salt water exclusion, pollution, recreation and domestic supplies; and

WHEREAS, Progress under this concept has also, in the face of the pressing requirements of population growth, national defense and sound economic advancement, called for a cooperative approach which has and must continue to include federal assistance in both finance and construction and any slow-down in construction caused by reliance upon state credit alone would inescapably soon be reflected in handicaps to economic stability and in actual economic loss; and

WHEREAS, There is pending before the Congress of the United States legislation which specifically calls for the immediate authorization and construction of the

Trinity River-San Luis Reservoir Project in which the ratio of benefits to cost of both phases of the project is known to be exceptionally favorable and the available market for both water and power developed by the project is known to far exceed potential output; and

WHEREAS, The Trinity River development will provide a new supply of water for irrigation, and through low cost power add to the economic feasibility of the storage and distribution facilities of the San Luis Reservoir Project in the San Joaquin Valley and the two developments in combination will enable the utilization of millions of acre-feet of flood water now wasting annually into Humboldt and San Francisco Bays; and

WHEREAS, Integration of the Trinity River-San Luis Reservoir Project with the federally operated Central Valley Project will increase the economic feasibility of both projects and such integration should continue until the State of California determines that it is in a position to assume the responsibilities of operation, maintenance and further development of the San Luis phase of the project and provide for its integration with its state-wide program; and

WHEREAS, Such eventual integration with the state plan should be provided for in congressional legislation in view of the pending development of the Feather River and any development or construction provided by any agency of the Federal Government should be planned and designed with this aim and purpose in mind for the full development of California's water resources requires a state-wide master plan into which all projects can eventually be integrated; no, therefore, be it

*Resolved by the Senate of the State of California,* That because of the economic dangers and reversals which may be attendant on further delay in construction of the Trinity River-San Luis Reservoir Project, the Congress of the United States is hereby petitioned to enact such legislation as may be required to bring about immediate authorization and construction of the project by the Federal Government under a plan which will permit integration of the project with a state-wide California plan at a later date; and, be it further

*Resolved,* That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Secretary of the Interior and to the Secretary of the Army.

Resolution read and referred to Committee on Rules.

**Amendment No. 1**

**Amendment No. 2**

On page 1 strike out lines 1 through 5, and insert

**"CHAPTER I. GENERAL**

**SECTION 1.** This act shall be known and may be cited as the Santa Cruz County Flood Control and Water Conservation District Act.

**SEC. 2.** A flood control and water conservation district is hereby created, to be called the "Santa Cruz County Flood Control and Water Conservation District", and the boundaries and territory of said district are as follows:

All that territory of the County of Santa Cruz lying within the exterior boundaries thereof.

**SEC. 3.** As used in this act:

"District" means Santa Cruz County Flood Control and Water Conservation District.

"Board" means the board of directors of the district.

**SEC. 4.** The objects and purposes of this act are to provide, to the extent that the board may deem expedient or economical for water conservation, the control and disposition of flood, storm and other waters of the district, and to that end the district is hereby created to be a body corporate and politic and as such shall have powers herein provided.

**SEC. 5.** This act shall be liberally construed to the end that the purposes may be effective. No error, irregularity, informality and no neglect or omission of any officer of the district in any procedure taken hereunder which does not directly affect the jurisdiction of the board to order the work done or improvement to be made shall void or invalidate such proceedings or any assessment for the cost of work or improvement done thereunder.

**SEC. 6.** The provisions of this act relative to the performance of official duty as to any time or place, the form of any resolution, notice, order, list, certificate of sale, deed or other instrument shall be deemed directory. No bond, coupon, assessment, or installment thereof, or of the interest or penalties thereon, or certificate of sale or deed shall be held invalid for error in the computation of the proper amount due on the same.

**SEC. 7.** All decisions and determinations of the board, upon notice and hearing, shall be final and conclusive upon all persons, as to all errors, informalities, omissions and irregularities which might have been avoided, or which might have been remedied during the progress of the proceedings, or which can be remedied, and as to illegalities not amounting to a want of due process of law.

**SEC. 8.** The area of the district is subject to periodical floods during the rainy seasons precipitated by the water of the Pajaro and other rivers, which rivers are an important potential source of water for domestic, industrial and agricultural uses inside and outside the watersheds. During the dry season, said rivers would be without water if it were not for the foreign waters turned into the rivers. Recognizing this fact, the United States Army Engineers have made studies and recommendations for a proposed plan of improvement for flood control and allied purposes within the area of the district. The cost of adequate flood control and water conservation is beyond the means of the property owners and taxpayers of the district, and it is necessary to negotiate to obtain financial aid from the United States Government. It is recommended by the United States Government and it is desirable to immediately form a political entity to satisfactorily deal with the agency of the United States Government.

Investigation having shown conditions in the county to be peculiar to that county, it is hereby declared that a general law cannot be made applicable thereto and that the enactment of this special law is necessary for the conservation, development, control and use of said waters for the protection of life and property therein and for the public good.

SEC. 9. If any provision of this act, or the application thereof to any person or circumstance, is held invalid, the remainder of this act, or the application of such provision to other persons or circumstances, shall not be affected thereby.

SEC. 10. Any proceeding wherein the final action of the district in forming any zone is questioned must be brought or the defense raising such question filed within 30 days after such final action. Any proceeding wherein the validity of any bond issue is questioned must be brought or the defense raising the question filed within 30 days after the date of election. Any proceeding wherein the validity of any resolution of intention or the award of any contract or the levy of any assessment or the issuance of bonds in any assessment proceeding is questioned must be brought or the defense raising such question filed within 30 days after the resolution ordering the acquisitions or improvements as to such resolution of intention, after the award of said contract as to said contract, after the levy of said assessment as to said assessment, and after the issuance of said bonds as to any bonds.

SEC. 11. All bonds issued in pursuance of the provisions of this act by their issuance be conclusive evidence of the regularity, validity and legal sufficiency of all proceedings, acts and determinations in any wise pertaining thereto, had or made under this act.

SEC. 302. Proceedings for the establishment of a zone may be instituted by the board, by resolution, on its own initiative and shall be instituted by the board upon receipt of a petition requesting the formation of a zone and signed by not less than 10 percent of the registered electors in the proposed area thereof.

SEC. 303. The petition may consist of any number of separate instruments, each of which must comply with all of the requirements of a petition except as to number of signatures.

SEC. 304. A petition requesting the formation of a zone for the institution of a project of works of improvement shall:

(a) Request the board to institute proceedings to establish the zone;

(b) Describe the boundaries of the territory which is proposed for inclusion in the zone;

(c) State the specific project or works of improvement for which the zone is to be created.

SEC. 305. Before a petition is circulated, the proposed boundaries of the zone shall be submitted to the county boundary commission for recommendation and report as provided in Chapter 3, Title 6, of the Government Code.

SEC. 306. Prior to the hearing on the proposal to establish any zone, the board shall direct the chief engineer of the district to make and file a report with the board which shall show:

SEC. 307. The report shall be considered by the board which may either accept the report as filed or refer it back to the chief engineer of the district for consideration of such modification or change as the board deems necessary in the best interests of the district.

SEC. 308. After receiving a satisfactory engineer's report on the proposal to establish a zone, the board shall adopt a resolution of intention to establish a zone, which resolution shall contain the following:

(a) A statement that a zone is proposed to be established under the terms of this act and describing the boundaries of the territory proposed for inclusion in the zone;

(b) A statement as to the name proposed for the zone in substantially the following form: "Santa Cruz County Flood Control and Water Conservation District, Zone No. \_\_\_\_";

SEC. 310. At the hearing the board shall hear testimony of all interested persons for or against the establishment of the zone, the inclusion therein of any lands that would not be benefited or the failure to include any lands which would be benefited, and the undertaking of the project or works of improvement.

SEC. 311. The board shall also receive any written protests by any interested person concerning the establishment of the zone which are filed with the clerk of the board at or before the time fixed for hearing.

SEC. 312. Written protests may be withdrawn at any time before the hearing is concluded.

SEC. 313. The hearing may be continued from time to time for a period not to exceed 60 days.

SEC. 314. At the conclusion of the hearing the board shall consider all testimony and protests presented to it concerning the establishment of the zone, and may, if it determines it to be in the best interests of the district, establish the zone.

SEC. 315. If the board determines to establish the zone, it shall, by resolution, so declare and fix the boundaries and designate the projects or works of improvements to be performed therein.

SEC. 316. No land which will not be benefited shall be included in any zone.

SEC. 317. No zone initiated by petition shall be created,

(a) For any project or works of improvement not included in the petition or amendment thereof, or

(b) Which includes lands not within the boundaries proposed in the petition or any amendment thereof.

If at any time before the establishment of a zone there is a written protest filed with the clerk by the owners of real property in excess of 50 percent of the assessed valuation of such property within the zone as shown by the last equalized assessment roll of the county, the proceedings shall be forthwith abandoned and the board shall not, for a period of six months from the filing of the written protest, initiate any proceedings to establish a zone for the same project or works of improvement as that proposed.

SEC. 319. No city or district empowered to produce, store or distribute water shall be included within a zone without its written consent by resolution adopted by its legislative body unless its electors have so consented.

SEC. 320. A referendum may be had within a zone on the formation thereof within the time and in the manner provided for the formation of county sanitation districts.

#### Article 2. Modification of Works

SEC. 333. The hearing on said report shall be had on notice published once at least ten (10) days before, and the determination of the board made at the time of said hearing.

SEC. 334. When any bonds have been authorized or issued for the purpose of any report, the proceeds thereof may be used for the purposes of any modification thereof made pursuant hereto.

#### Article 3. Inclusion of Territory

SEC. 351. Territory may be annexed to or included in any zone in the manner herein provided for the formation of a zone.

SEC. 352. Territory may also be annexed to or included in any zone in the manner provided for the inclusion of territory in a county water district, except that said area shall be annexed upon the adoption of the resolution so declaring and no certificate or ordinance shall be used.

SEC. 353. When the territory has been annexed it shall thereupon become a part of the zone and shall be subject to all of the liabilities and entitled to all of the benefits of the zone.

#### Article 4. Exclusion of Territory

SEC. 371. Territory may be excluded from any zone in the manner provided for the exclusion of territory from a county water district, except that said area shall be excluded upon the adoption of the resolution so determining and no certificate or ordinance shall be used.

#### Article 5. Consolidation of Zones

SEC. 391. Two or more zones may be consolidated in the manner provided for the formation of a zone, except that reference in said proceedings shall be had to consolidation rather than to formation.

SEC. 412. The zone shall be dissolved upon the adoption of the resolution so declaring following the canvass of the vote, and no ordinance or certificate shall be used or filed.

SEC. 413. The title to the assets of the zone shall be and remain in the district.

SEC. 414. If the assets are not further needed for any district purposes, they may be sold and the proceeds applied in payment of zone liabilities.

SEC. 415. If the receipts from the sale of the assets of the zone are more than sufficient to pay its indebtedness, the remaining amount shall be paid into the general fund of the district.

SEC. 416. If an insufficient amount is secured from the sale of the assets to pay the indebtedness, the board shall from time to time cause taxes to be levied on the property in the zone liable to taxation for the indebtedness and collected in a sufficient amount to pay the balance of the indebtedness as it matures.

#### CHAPTER 8. ZONE BONDS

##### Article 1. General Obligation Bonds

SEC. 431. The board must estimate and determine the amount of money necessary to be raised within one or more zones to construct or purchase necessary works and acquire the necessary property and rights therefor and otherwise carry out the provisions of this act, and may determine that a different percentage of the cost be raised in each zone.

SEC. 432. For the purpose of ascertaining the amount of money necessary to be raised for such purposes, or any of them, the board shall cause such surveys, examinations, drawings and plans to be made as shall furnish the proper basis for said estimate.

SEC. 433. All such surveys, examinations, drawings and plans shall be made under the direction of the engineer of the district and shall be certified by him.

SEC. 434. In determining the amount of bonds to be issued, the board may include:

(a) all costs and estimated costs incidental to or connected with the acquisition, construction, improving or financing of the enterprise; and

(b) all engineering, inspection, legal and fiscal agent's fees, costs of the bond election and of the issuance of the bonds, bond reserve funds and working capital and bond interest estimated to accrue during the construction period and for a period of not to exceed 12 months after completion of construction.

SEC. 435. After receiving such report the board shall determine and declare by resolution whether or not the proposed plan of work is satisfactory and whether or not the project, as set forth in said report, is feasible, and if so, shall make an order determining the amount of bonds that should be issued in order to raise the amount of money necessary therefor, and in determining said amount, sufficient shall be included to cover the cost of inspection of works in course of construction.

SEC. 436. After the adoption of said report and estimate of the amount of money required to be raised, the board shall call a special election and submit to the qualified voters of said zone or zones a proposition.

SEC. 437. The proposition shall be whether the zone or zones incur a bonded indebtedness for the purpose of providing for the conservation, control and disposition of flood and storm waters of said district and to protect from damage from such storm and flood waters, the waterways, property, public highways, and public places in said district, and for any other purpose set forth in this act, and shall state the percentage of the cost to be raised in each zone if more than one.

SEC. 438. Propositions for incurring indebtedness may be united and be submitted as a single proposition or separate propositions may be submitted for each separate purpose.

SEC. 439. The resolution calling the special election shall state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor and shall fix the maximum rate of interest to be paid on said indebtedness which shall not exceed six percent (6%) per annum, and shall fix the date on which the special election shall be held and the manner of voting for and against the incurring of such indebtedness.

SEC. 440. For the purpose of said election, the board shall, in its resolution, establish election precincts within the boundaries of the zone or zones, and may form election precincts by consolidating the precincts established for general election purposes in said district to a number not exceeding six for each such bond election precinct, and shall designate a polling place and appoint one inspector, one judge and two clerks for each such precinct.

SEC. 441. In all particulars not recited in such resolution, such election shall be held as nearly as practicable in conformity with the general election laws of the State for county elections.

SEC. 442. At such election all persons whose names appear on the last great register of the county as residing within the zone or zones shall be entitled to vote.

SEC. 443. Such resolution calling such election shall be published once a week for two weeks in some newspaper published in such district and circulated in the zone or zones. No further notice of such election need be given.

SEC. 444. Any defect or irregularity in the proceedings prior to the election shall not affect the validity of the bonds.

SEC. 445. If at such election a majority of the votes are cast in each zone in favor of the incurring of such bonded indebtedness, then the bonds of said district or zone or zones, for the amounts stated in such proceedings, shall be issued and sold as provided in this act.

SEC. 446. The board shall prescribe by resolution the form of the bonds and of the interest coupons attached thereto and shall fix the maximum rate of interest said bonds shall bear.

SEC. 447. The bonds shall mature serially in amounts to be fixed by the board, payment of the bonds commencing not later than five years from the date thereof and being completed in not more than 40 years from said date.

SEC. 448. The board shall fix the place, or places (which may be within or without the State of California and which shall be designated in said bonds) where said bonds together with the interest thereon shall be payable.

The board may, in its discretion, divide the aggregate principal amount of such issue into two or more divisions or series and fix different dates for the bonds of each separate division or series. In the event any authorized issue is divided into two or more divisions or series, the bonds of each division or series may be made payable at such time or times as may be fixed, separate and distinct from the time or times of payment of bonds of any other division or series of the same issue.

SEC. 453. The bonds shall be signed by the chairman of the board which may be by his printed, lithographed or engraved signature, and countersigned by the treasurer of the district, and the seal of said district shall be affixed thereto.

SEC. 454. The interest coupons of the bonds shall be numbered consecutively and signed by the treasurer of said district by his printed, engraved or lithographed signature.

SEC. 459. Whenever the district shall have any moneys in any fund which money is not immediately required, the same or any part thereof may be invested temporarily in any bonds already issued by such district or in any bonds of the United States of America or the State of California or as provided by law. The interest therefrom shall be deposited in the fund from which the investment was made.

SEC. 460. Such investment may be made by direct purchase of any issue of bonds of the district or any part thereof at the original sale of such bonds or by the purchase of such bonds after they have been so issued. Any bonds so purchased and held in any such fund may from time to time be sold and the proceeds temporarily reinvested in bonds as above provided.

SEC. 461. Sale of any bonds so purchased and held in any fund shall, from time to time, be made in season so that the proceeds may be applied to the purpose for which the fund was created except that if such moneys shall not be required for the purpose of paying the interest or any part of the principal of the outstanding bonds, the bonds of the district purchased from such moneys may be cancelled by the treasurer of said district upon order by the board.

SEC. 462. Bonds issued under this act shall be, by their issuance, conclusive evidence of the regularity, validity and legal sufficiency of all proceedings, acts and determinations had or made under this act.

SEC. 463. The bonds and the interest thereon shall be paid from revenue or from an annual tax upon the taxable property within the zone or zones in which they are issued, and all such taxable property within such zone or zones shall be and remain liable to be taxed for such payments as herein provided.

SEC. 464. Any bonds which shall be issued under the provisions of this act shall be legal investments for all trust funds, and for the funds of insurance companies, banks, both commercial and savings, and trust companies, and for state school funds.

SEC. 465. Whenever any money or funds may be, by any law now or hereafter enacted, invested in bonds of cities, cities and counties, counties, school districts or irrigation districts, within the State of California, such money or funds may be invested in the bonds issued under this act.

SEC. 466. Whenever bonds of cities, cities and counties, counties, school districts or irrigation districts within this State may be, by any law now or hereafter enacted, used as security for the performance of any act of the deposit of any public moneys, the said bonds issued under this act may be so used.

SEC. 467. All proceeds received from the sale of the bonds hereunder shall be deposited with the county treasurer in a special construction fund and be paid out by him only upon authority of the board and by proper warrant.

SEC. 468. All proceeds from the sale of bonds and interest on such proceeds in excess of the actual cost of all work and improvement and proceedings thereunder may be used for any lawful purposes for which said zone or zones were created as in this act provided.

SEC. 469. Notwithstanding any other provisions of this act the board may, in a resolution relating to the issuance of revenue bonds, designate a trustee, fiscal agent, paying agent or depository to receive the proceeds of sale of said revenue bonds or all or a part of any revenues received or to be received by the district from any enterprise or from any services or facilities furnished or to be furnished, all as set forth in such resolution.

SEC. 512. A summons shall be issued in such action, which summons, besides the matters required by Section 407 of the Code of Civil Procedure, shall contain a statement that the action is brought to determine the validity of bonds of the district to the amount stated therein.

SEC. 513. The jurisdiction of all parties interested may be had by publication of summons for at least once a week for three weeks in some newspaper of general circulation published in the county, such paper to be designated by the court.

SEC. 514. Jurisdiction shall be complete within 10 days after the full publication of such summons in the manner herein provided. Anyone interested may at any time before the expiration of said 10 days appear and by proper proceedings contest the validity of such bonds.

SEC. 515. The action shall be given precedence in hearing and trial over all other civil actions or proceedings in such court and judgment shall be rendered therein declaring said bonds either valid or invalid.

SEC. 516. The court hearing any proceeding or action inquiring into the regularity, legality or correctness of the proceedings leading up to the issuance of bonds or the validity of the bonds must disregard any error, irregularity, or omission which does not affect the substantial rights of the parties to said action or proceeding.

SEC. 517. The rules of pleading and practice provided by the Code of Civil Procedure which are not inconsistent with the provisions of this act are applicable to all actions or proceedings herein provided for.

#### CHAPTER 9. MEMBER UNITS

SEC. 571. "Member unit" means any city, or any public or municipal corporation or district, or political subdivision or agency of the State empowered by law to appropriate and to deliver water, the territory of which lies entirely within the exterior boundaries of the county but is not included in a zone.

SEC. 572. A member unit may enter into a contract with the district for:

- (a) The repayment in whole or in part to the district or any other person, corporation, public district, State of California, or the United States, of any or all of the costs of acquisition, construction and financing of any works by or on behalf of the district; or for

SEC. 573. The district shall have the power, as to member units, to sell, lease or otherwise dispose of water or any rights to the use of the works of the district for the conservation, control or transportation of water, and shall have the power to fix rates and charges for such purposes.

SEC. 574. The district shall have the power to appropriate water or to acquire water rights to whatever extent and for whatever purposes any member unit or any agency of the State of California or of the United States of America having an interest therein or affected thereby shall have agreed to in writing.

SEC. 575. The liability of each member unit, as distinguished from the liability of its taxpayers and property therein for taxes levied by the district for district purposes, shall be limited to that portion of the total cost for water or water supply or to that portion of the total cost of acquisition and construction and the costs of operation and maintenance of works acquired or constructed by or on behalf of the district or member unit which such member unit agrees to bear.

SEC. 576. The liability of each member unit shall be set forth fully in a written contract which shall be legally approved by such member unit in accordance with the laws governing such member unit. No such contract shall be altered or modified without the consent of the district and the legal approval of such member unit.

SEC. 577. Each such contract may provide among other things:

- (a) The total capital obligation which the member unit agrees to bear;
- (b) The minimum annual payments which the member unit shall make in amortization of its capital obligation;

(c) The quantity or pro rata portion of water which shall be delivered to or held in storage for the member unit;

(d) The basis of allocation of operation and maintenance costs to be borne by the member unit; and

(e) The quantity or other measure of water supply or water agreed to be acquired by or furnished or sold to such member unit and the cost thereof to such member unit.

SEC. 578. Such contract shall be fair and equitable to each contracting party, and no member unit shall receive any undue advantage over any other member unit having proper regard for all factors and conditions involved.

SEC. 579. In the event of any reduction in the principal of any debt of the district underwritten by one or more member units, other than by payment thereof, the amounts to be paid the district by each member unit in amortization of its remaining portion of such debt shall be reduced proportionately so that the relative obligations of each such unit shall be unchanged.

SEC. 580. In the event of any reduction in the rate of interest being paid on any part of a debt of the district for which one or more member units are responsible, the amounts to be paid the district by each such member unit shall be reduced proportionately so that the relative obligation of each such unit remains unchanged in respect to its obligation to pay any remaining interest.

SEC. 581. Any member unit may reduce its obligation under its contract with the district by assignment to another member unit of any part of its right to receive water under its contract; provided, that such assignment is legally approved, in accordance with the laws governing such member unit, by each member unit which is a party to such assignment; provided further, that the total of all payments to be made by such member units to the district shall not be reduced by virtue of such assignments; and provided further, that the assignor member unit may be required by the district to guarantee the payments assumed by the assignee member unit.

SEC. 582. Any member unit may elect that any water to which it is entitled be held in storage in the district's reservoirs so long as there is unfilled capacity in the reservoirs from which such water would otherwise be withdrawn for delivery to it; provided, that if two or more member units desire simultaneously to store water as aforementioned and there is not sufficient capacity to accommodate such member units, the storage capacity shall be apportioned between them in accordance with the amount of capital cost of such reservoir they have respectively underwritten, or in accordance with the amount of water they have respectively contracted to purchase during the period of such storage.

SEC. 583. Any member unit may release for the use of any other member unit any amount of water which may then be held temporarily in storage for its account, and in such event the district shall deliver such water to such other member unit; but such delivery shall be deemed to be for the account of the member unit releasing such water.

SEC. 584. If any capital asset of the district is sold or otherwise disposed of, the net proceeds therefrom shall be distributed to the member units, or applied against any liability of such member units to the district as by such contract may be provided, in the proportion that the amount contributed by each such member unit to the cost of such capital asset is to the total cost of such capital asset.

SEC. 585. If any liability on the part of the district and/or its member units for the original cost or any subsequent improvement or refinancing of such capital asset is not completely extinguished at or before the time of the sale or other disposal of property, the district shall have the power to apply as much of the proceeds of such sale toward the extinguishment of such liability as may be necessary. In extinguishing such liability, the proceeds of such sale shall be applied only as the interests and liabilities of the district and its member units shall appear.

SEC. 586. Each contract providing for repayment of the cost of any works, or for the payment of any water or water supply, which is entered into with the United States pursuant to this act, shall be authorized at an election, unless by a resolution adopted by a four-fifths vote of the members of the board, said board shall determine that all liabilities of the district thereby incurred can be repaid and liquidated both as to principal and interest from revenue derived from taxes levied at a rate not to exceed twenty-five cents (\$0.25) on the one hundred dollars (\$100) assessed valuation of property in the zone or zones for which it is made, and from payments to be made to the district by member units pursuant to written contracts providing for the payment currently of whatever amounts may be necessary to amortize the portion of said cost underwritten by said member units or providing for the payment currently of whatever amounts may be necessary to pay the portion of the cost of any water or water supply to be furnished or sold to such member units.

SEC. 587. Upon the adoption of such resolution, the board shall have the power, on behalf of the district, without the necessity of an election, to enter into such a repayment contract or into such a contract for the purchase of water or a water supply with the United States, subject to all provisions of this act applicable to such contracts, except provisions requiring an election to authorize such contracts.

SEC. 588. Except as otherwise in this act provided, proceedings at the election shall be had insofar as applicable in the manner provided in the case of the issuance

of district bonds; provided, that all qualified voters of the zone or zones involved shall be entitled to vote.

SEC. 589. Notice of the election shall contain, in addition to the information required in the case of bond elections, a statement of the maximum amount of money to be payable to the United States for construction purposes and cost of water supply and acquisition of property, exclusive of penalties and interest, and a general statement of the property, if any, to be conveyed by the district pursuant to the contract.

SEC. 590. The ballots at the election shall contain a brief statement of the general purpose of the contract substantially as stated in the notice of election and the extent of the obligation to be assumed, with the words "Contract—Yes" and "Contract—No" or "Contract and Bonds—Yes" and "Contract and bonds—No", whichever may be applicable. A majority of the votes cast at such election shall be necessary to authorize the execution of the contract and/or issuance of the bonds.

SEC. 591. All payments to the United States under any contract between the district and the United States, including payments of interest and principal on bonds deposited with or transferred to the United States, shall be paid so far as possible from revenue other than that derived from zone taxes, unless otherwise provided by the contract, and the balance, if any, of such payments shall be paid from revenue derived from annual taxes upon all taxable property within the zone or zones involved and the taxable property shall be and remain liable to be taxed for the payments.

SEC. 592. All money collected in pursuance of the contract with the United States shall be paid into the county treasury to the credit of the district and held in a fund to be known as the United States Contract Fund for such contract and be used for payments due to the United States under the contract.

SEC. 593. The district shall have the power, in its discretion, to suspend delivery of water conserved by the district or obtained by or on behalf of the district or a member unit to any member unit during the period that said member unit is delinquent in its payments for or obligations due in respect of such water under any contract entered into by it with the district.

SEC. 594. The district shall have the power to levy a special ad valorem tax on all the taxable property in any member unit whenever any such member unit is delinquent in any payment due the district by such member unit under any contract entered into by it.

SEC. 595. Such tax shall be levied only at a rate sufficient to raise an amount equal to the amount delinquent.

SEC. 596. Such tax shall be levied and collected at the same time and in the same manner as general district taxes, and shall be paid into the county treasury to the account of the district and shall be used only to reduce the liability of such delinquent member unit.

SEC. 597. No property in any portion of the district, other than that in the delinquent member unit, shall be liable for or taxed to pay for such delinquency."

"SECTION 1. Section 1181.1 is added to the Code of Civil Procedure, to read: 1181.1. Any person, other than an original contractor, furnishing materials to be used or consumed in, or furnishing appliances, teams or power contributing to any work of improvement referred to in said Sections 1181, 1182 and 1184.1, shall, not later than 10 days after the date such person commenced furnishing materials, appliances, teams or power, serve upon the owner a notice stating that such person has commenced to furnish materials, appliances, teams or power to be used or consumed in or contributing to such work of improvement and that a lien may be claimed for the value of such materials furnished or for the value of the use of such appliances, teams or power.

The word "owner" as used in this section is defined to mean the owner who caused the work of improvement to be made (or his successor in interest at the date of the commencement of furnishing the materials, appliances, teams or power for which a lien is claimed) whether the interest or estate of such owner be in fee, as vendee under a contract of purchase, as lessee, or other interest or estate less than the fee; and where such interest or estate less than the fee; and where such interest or estate is held by two or more persons the notice may be served on any one thereof.

Any person who fails to serve such notice shall thereby deprive himself of the right to claim or enforce a lien under this chapter for the value of the materials furnished, or for the value of the use of the appliances, teams or power furnished; provided, however, the provisions of this section shall not affect the right of any person performing labor upon or bestowing personal skill or services on such work of improvement to claim the benefit of this chapter to the extent of the value of such labor or personal skills or services."

#### Amendment No. 2

On page 1, strike out lines 1 to 22, inclusive, and insert

"SECTION 1. Section 830.3 of the Agricultural Code is amended to read:

830.3. Any commissioner may issue to any person residing in his county or maintaining a principal place of business therein a permit to [transport or deliver] *sell, buy, receive, transport, deliver, or cause to be transported* fruits, nuts, or vegetables exempt from the standards established in this chapter, for any one or more of the purposes set forth in Section 830; but no permit shall be issued for the purpose set forth in subparagraph (a) of Section 830 unless and until the commissioner has found and determined that the packing plant from which the fruits, nuts, or vegetables are to be transported or delivered has not proper and adequate facilities for processing, grading, packing, or reconditioning the particular lot of fruits, nuts, or vegetables, and that the packing plant to which the fruits, nuts, or vegetables are to be transported has such facilities. Such permits may be issued for a period not exceeding 12 months.

No permit issued hereunder, *except to the seller and the receiver*, shall be valid except in the county where issued unless the permit, or a rider securely attached thereto, carries the endorsement of the commissioner of the county (1) to which the fruits, nuts, or vegetables are to be transported or delivered and (2) from which such products are to be transported or delivered.

Any commissioner may refuse to issue or to endorse a permit if in his judgment the permittee does not have available proper and adequate facilities with which to pack, process or otherwise dispose of such commodities in accordance with the provisions of this chapter and the terms of the permit. A permittee shall, upon request of any commissioner, furnish such affidavits, receipts and other evidence as such commissioner reasonably may require as proof that the commodities have been disposed of in accordance with the provisions of this chapter and the terms of the permit.

[Any commissioner, after notice and hearing, may revoke or suspend any permit or endorsement issued by him, and shall refuse to issue or to endorse any permit, if the facts established at such hearing reveal that the permittee or applicant has violated any of the provisions of this chapter or the terms of any permit issued hereunder, or has failed or refused to furnish the evidence required by the commissioner as hereinabove provided.]

[Notice of hearing when mailed to the permittee or applicant at the address given in his application shall give the commissioner jurisdiction to act in the matter.]

SEC. 2. Section 830.35 is added to said code, to read:

830.35. Any commissioner may refuse to issue or to endorse a permit described in Section 830.3 of this code, if after investigation and in his judgment the applicant for permit does not have available proper and adequate facilities with which to pack, process or otherwise dispose of the commodities described in Section 830 of this code, and in accordance with the provisions of this chapter. Any applicant for such permit, after initial refusal of the commissioner to issue or endorse a permit, may request, in writing, a hearing before said commissioner; said commissioner, after notice and hearing, may refuse to issue or to endorse any permit if the facts established at such hearing reveal that (1) the applicant for permit has previously violated any of the provisions of this chapter, (2) or the terms of any permit issued hereunder, (3) or has failed or refused to furnish the evidence required by the commissioner, as hereinabove provided in said Section 830.3.

Any commissioner, after notice and hearing, may revoke or suspend any permit or endorsement issued by him, if the facts established at such hearing reveal that the permittee or applicant has violated any of the provisions of this chapter, or the terms of any permit issued hereunder, or has failed or refused to furnish the evidence required by the commissioner, as hereinabove provided in said Section 830.3.

Notice of time and place of any hearing provided in this section shall be mailed to the applicant or permittee, at the address given in his application, not less than five days before said hearing, unless notice of time and place of hearing or the period prescribed for said notice shall be changed by stipulation, agreement or request by the applicant or permittee. If a hearing is requested by an applicant for permit, the agricultural commissioner shall call and hold said hearing not later than 10 days from the date of receipt of said application or petition for hearing.

Nothing herein contained shall be construed to allow an applicant or petitioner for permit to operate pending the disposition of his application or petition. Nothing herein contained shall be construed to prevent the commissioner from suspending or revoking a permit forthwith, and without notice or hearing; provided, however, that such peremptory action must be supported by previous investigation, the results of which reasonably indicate to said commissioner that to allow an existing permit

to remain in use pending a hearing would encourage, allow or permit additional or other violations of the provisions of this chapter.

Any petitioner, applicant, or permit holder may appeal to the director, within 10 days, for a hearing upon an order of the commissioner refusing to issue a permit, or suspending or revoking the same.

SEC. 3. Section 830.5 of said code is amended to read:

§30.5. It is unlawful for any person who does not hold a valid permit issued under the provisions of Section §30.3 to [transport, or cause to be transported,] ~~sell, buy, receive, transport, deliver, or cause to be transported,~~ any fruits, nuts, or vegetables, which are exempt from the standards established in this chapter, and which do not conform to such standards.

*It is unlawful to transport any substandard fruits, nuts, or vegetables unless a valid permit accompanies the vehicle in which such substandard produce is being transported, and such permit shall be submitted for inspection upon demand of any enforcing officer.*

This section shall not apply to:

(1) A common carrier operating over a regular route or between fixed termini and transporting any such fruits, nuts, or vegetables, in good faith and in accordance with its duties as a common carrier.

(2) Any person transporting fruits, nuts, or vegetables from the orchard or field where they were produced to a packing plant within the State for first processing, grading, or packing.

(3) Any person transporting fruits, nuts, or vegetables in accordance with the terms of a disposal order duly issued under the provisions of Section §30.1."

"SECTION 1. This act shall be known and may be cited as the Santa Clara-Alameda-San Benito Water Authority Act.

#### PART 1. GENERAL PROVISIONS

SEC. 2. The following definitions shall govern the construction of this act unless the contrary is indicated:

(1) "Authority" means the Santa Clara-Alameda-San Benito Water Authority as organized and incorporated hereunder.

(2) "Public agency" means and includes any public corporation, public district, or agency of the State of California having the power to acquire and distribute water and located within the boundaries of any or all of the following counties: Alameda County, San Benito County, Santa Clara County.

(3) "Directors" means the board of directors of the authority.

(4) "Principal county" means the county in which lie the lands within the authority, as created and established, having the greatest assessed valuation, according to the last equalized assessment roll applicable to such lands, such valuation being, for this purpose, based on land alone, exclusive of improvements.

#### PART 2. ORGANIZATION

SEC. 11. The Santa Clara-Alameda-San Benito Water Authority may be organized and incorporated hereunder by two or more public agencies in any or all of the following counties: Alameda County, San Benito County, Santa Clara County; which public agencies need not be contiguous, and when so incorporated the authority shall be a separate and independent political corporate entity and shall exercise the powers herein expressly granted, together with such implied powers as are

necessary to carry out the objects and purposes of the authority. A public agency, upon becoming a member agency, shall retain its separate identity and shall, without change, continue in existence.

SEC. 12. The procedure for organizing and incorporating the authority is as follows:

(1) Within 120 days of the effective date of this act resolutions may be passed by the legislative body of any public agency as herein defined, declaring that in its opinion public interest or necessity demands the creation and maintenance of the authority. A certified copy of the resolution shall be presented to the board of supervisors of the county within which the greater portion of the public agency is located, requesting said board to call an election without delay for determining whether such authority shall be created.

(2) Upon receipt of a resolution and petition the board of supervisors shall call an election within the territorial boundaries of each public agency which has adopted the resolution for the purpose of determining whether the proposed authority shall be created and established.

(3) The board of supervisors shall give notice of said election by publishing the same once a week for at least three weeks before the date of said election in a newspaper of general circulation, published within the public agency within which such election is called, or if no newspaper of general circulation is published within such public agency, then such publication shall be made in a newspaper of general circulation published within the county in which such public agency is located or within which the greater portion of the said public agency is located.

(4) Said notice shall state, among other things, the name of the proposed authority, and designate the respective election precincts and the polling places in each; the election officers and the time of the election, and the hours during which the polls will be kept open; provided, that the polls must be opened not later than 8 o'clock a.m. and kept open until 7 o'clock p.m.

(5) The ballot for said election shall contain such instructions as are required by law to be printed thereon, and in addition thereto there shall appear the following:

Shall \_\_\_\_\_ (naming the public agency) join in creating and establishing "Santa Clara-Alameda-San Benito Water Authority"?

Yes

No

(6) Said election and all matters pertaining thereto, shall be held and conducted and the results thereof ascertained, determined and declared prior to the twentieth day of January, 1956, and said election and all matters pertaining thereto, not otherwise provided for herein, shall be held and conducted and the results thereof ascertained, determined and declared in accordance with the general election laws of the State, as nearly as may be, and no person shall be entitled to vote at said election unless he or she be a qualified elector of the public agency in which the said election is held.

(7) The board of supervisors of each county in which such election or elections are held shall meet on Monday next succeeding the day of said election and canvass the votes cast thereat, canvassing the returns of each public agency separately. Said board shall thereupon declare the result of said canvass and shall certify the same to the Board of Supervisors of the County of Santa Clara. The Board of Supervisors of the County of Santa Clara shall order and declare the authority created and established consisting of the public agencies in which a majority of those who voted on the proposition voted in favor of the creation of said authority; provided, however, that the authority shall not be created if the total assessed valuation of the lands, exclusive of improvements, within such approving public agencies shall be less than one hundred million dollars (\$100,000,000).

SEC. 13. The Board of Supervisors of Santa Clara County shall cause a certified copy of said order declaring the result of said election to be filed in the Office of the Secretary of State, and with the legislative body of each of the public agencies in which said election was held. From and after the filing of said order in the Office of the Secretary of State the establishment of the authority shall be deemed complete.

SEC. 14. The board of supervisors calling each election shall make all provision for the holding thereof and the cost thereof shall be a proper charge against the county. In case a special election is held exclusively on the proposition of organizing such an authority, the expenditure therefor shall be reimbursed to the county by means of a special tax on all of the taxable property within the public agencies in which such election was held, which tax shall be assessed, levied, and collected together with and at the same time as the next county taxes by the proper officers of the county.

SEC. 15. No informality in any proceeding or in the conduct of said election not substantially affecting adversely the legal rights of any citizen, shall be held to invalidate the incorporation of the authority, and any proceedings attacking the

validity of said incorporation, shall be commenced within three months from the date of filing the aforesaid order with the Secretary of State, otherwise such incorporation and the legal existence of the authority shall be held to be valid and in every respect legal and incontestable.

### PART 3. POWERS

SEC. 21. The authority shall have the following powers, including those necessarily implied therefrom:

(1) To have perpetual succession.

(2) To sue and be sued in actions and proceedings and in all courts and tribunals of competent jurisdiction.

(3) To adopt a corporate seal and alter it at pleasure.

(4) To take by grant, purchase, bequest, devise or lease, and to hold, enjoy, lease, sell or otherwise dispose of any and all real and personal property of any kind within or without the authority and within and without the State necessary or convenient to the full exercise of its powers; also to acquire, construct or operate, control and use any and all works, facilities and means necessary or convenient to the exercise of its powers, both within and without the authority, and within and without the State, and to do and perform any and all things necessary or convenient to the full exercise of the powers herein granted.

(5) To have and exercise the power of eminent domain, and in the manner provided by law for the condemnation of private property for public use, to take any property necessary to the exercise of the powers herein granted.

(6) To levy and collect taxes for the purpose of carrying on the operations and paying the obligations of the authority; provided, however, that such taxes, exclusive of any tax levied to meet any obligation to the United States or to any board, department or agency thereof, shall not exceed ten cents (\$0.10) on each one hundred dollars (\$100) of assessed valuation of land, exclusive of improvements, within the authority.

(7) To enter into contracts with any person, firm, association, private corporation or public corporation, public district or public agency, including public agencies the area of which shall be a part of the authority, employ and retain personal services and employ laborers; to create, establish and maintain such offices and positions as shall be necessary and convenient for the transaction of the business of the authority, and to elect, appoint and employ such officers, attorneys, engineers, agents and employees therefor as shall be found by the board of directors to be necessary and convenient for the transaction of the business of the authority.

(8) To join with one or more other public corporations for the purpose of carrying out any of its powers, and for that purpose to contract with such other public corporation or corporations for the purpose of financing acquisitions, constructions and operations. Such contracts may provide for contributions to be made by each party thereto and for the division and apportionment of the expenses of such acquisitions and operations, and the division and apportionment of the benefits, the services and products therefrom. Such contracts may contain such other and further covenants and agreements as may be necessary and convenient to accomplish the purposes hereof. The term "public corporation" as used in this subdivision shall be deemed to mean and include the United States or any public agency thereof or this or any other State or any political district, subdivision or public agency thereof.

(9) To acquire water and water rights within or without the State, but not within the county or counties in which the authority is organized or located; to develop, store and transport such water; to provide, sell or deliver water at wholesale for municipal, domestic irrigation, and other beneficial uses and purposes; provided, each public agency, the area of which shall be a part of the authority shall have a preferential right to purchase from the authority for distribution by such public agency, or any public utility therein empowered by said public agency for the purpose, for domestic, municipal irrigation and other beneficial uses within such public agency, a portion of the water served by the authority which shall, from time to time, bear the same ratio to all of the water supply of the authority as the total accumulation of amounts paid by such public agency to the authority on tax assessments and otherwise, excepting purchase of water, toward the capital cost and operating expense of the authority's works shall bear to the total payments received by the authority on account of tax assessments and otherwise, excepting purchase of water, toward such capital cost and operating expense; also to provide, sell and deliver surplus water of the authority not needed or required for beneficial purposes by the public agencies, the corporate area of which is included in such authority, but giving preference to uses within the authority; provided, that the supplying of such surplus water shall, in every case, be subject to the paramount right of the authority to discontinue the same, in whole or in part, and to take and hold, or to provide, sell and deliver, such water for domestic, municipal irrigation, or other beneficial uses within the authority upon one year's written notice to the purchaser or user of such surplus water, such notice to be given by the board of directors of the authority whenever it shall be determined and declared by resolution adopted by said board of directors by a two-thirds vote thereof that such water is

needed or required by any public agency, the corporate area of which is included within said authority, for domestic, municipal irrigation or other beneficial uses therein; to fix the rates therefor, and to acquire, construct, operate and maintain any and all works, facilities, improvements and property necessary or convenient therefor; provided, further, that the authority shall not have the power to provide, sell or deliver water for any purpose within the area of any public agency, the area of which shall be a part of the authority, without the express authority of the legislative body of such public agency first had and obtained.

(10) To cooperate and contract with United States under the Federal Reclamation Act of June 17, 1902, and all acts amendatory thereof or supplementary thereto, or any other act of Congress heretofore or hereafter enacted authorizing or permitting such cooperation, for the purposes of construction of works, necessary or proper for carrying out the purposes of said authority, or for the acquisition, purchase, extension, operation or maintenance of constructed works, or for a water supply, or for the assumption as principal or guarantor of indebtedness to the United States; also to borrow or procure money from the United States, or any agency thereof for the purpose of financing any of the operations of the authority.

(11) To invest any surplus money in the authority treasury, including such money in any sinking fund established for the purpose of providing for the payment of the principal or interest of any bonded or other indebtedness or for any other purpose, not required for the immediate necessities of the authority, in its own bonds, or in treasury notes, or bonds, of the United States, or of this State, and such investment may be made by direct purchase of any issue of such bonds or treasury notes, or part thereof, at the original sale of the same, or by the subsequent purchase of such bonds or treasury notes. Any bonds or treasury notes thus purchased and held may, from time to time, be sold and the proceeds re-invested in bonds or treasury notes as above provided. Sales of any bonds or treasury notes thus purchased and held shall, from time to time, be made in season so that the proceeds may be applied to the purposes for which the money, with which the bonds or treasury notes were originally purchased, was placed in the treasury of the authority.

(12) To have and exercise, to the extent not inconsistent with limitations specified in this act, all of the powers of irrigation districts as provided in Division 11 of the Water Code, with the further limitation that the authority shall not have the power to incur bonded indebtedness.

(13) To receive contributions from the United States, public districts, counties, public agencies or persons or corporations and to use such contributions for the purposes for which they are made. Any public district, county or public agency of the State is authorized to contribute money of such public district, county, or public agency to the authority.

### PART 3. BOARD OF DIRECTORS

SEC. 31. All powers, privileges and duties vested in or imposed upon the authority as incorporated hereunder shall be exercised and performed by and through a board of directors.

SEC. 32. The board of directors herein referred to shall consist of one representative from each public agency, the area of which shall lie within the authority.

SEC. 33. Members of the board of directors shall be designated and appointed as follows:

(1) At the first regular meeting of the legislative body of each member agency or at any special meeting called for the purpose, held after such agency has become a member of the authority, said legislative body shall prepare and transmit to the clerk of the board of supervisors of the county in which the lands, or the greater portion of the lands, of the member agency lies, a list comprising the names of two or more nominees of such member agency for the office of member of the board of directors of the authority.

(2) At the next regular meeting of the board of supervisors following receipt of such a list of nominees said board shall appoint one of the persons so nominated from each such list received to the office of director of the authority.

(3) The clerk of the board of supervisors shall thereupon certify each such appointment to the clerk of the board of supervisors of the principal county and to the member agency of the authority which had submitted such list of nominees.

SEC. 34. Members of the board of directors shall hold office for a term of four years, and until their successors are appointed and qualified; provided, that the terms of the members of the first board shall be determined by lot so that the term of not less than one half of the members shall be for two years and the terms of the remainder shall be four years; provided, further, that every member shall be subject to recall by the voters of the public agency from which such member is appointed, in accordance with the recall provisions of the law applicable to such public agency; and provided further, that any member may be recalled by the unanimous vote of the governing body of the public agency from which such member is appointed.

SEC. 35. As a member of the board of directors, each representative shall be entitled to vote on all questions, orders, resolutions and ordinances coming before

The board of directors may grant or deny such application and in granting the same may fix the terms and conditions of such proposed annexation. Such terms and conditions may provide, among other

#### PART 8. OTHER PROVISIONS

SEC. 101. If any provisions of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 102. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The public agencies within the area of water shortage in the counties of Alameda, San Benito and Santa Clara must take immediate action to organize in order to be in a position to make and complete applications to appropriate unappropriated waters originating outside said area before the possibility of securing such appropriate rights is lost forever. The end of local supplies of water for irrigation and industrial use is in sight and a shortage in domestic supply may follow. An outside source of water is absolutely vital to the people of the affected areas of these three counties. To protect the underground basin and to insure an adequate supply of pure water and so preserve the public health and safety the immediate availability of this act is essential."

Amendments read, and adopted.

The interagency transactions of the various agencies in the State Government represent a multimillion dollar volume of transactions annually which necessitates accounting procedures and controls flexible enough to maintain and reflect the current status of the separate appropriations and funds. Unless changes in such procedures become effective at the beginning of a fiscal year, a great many adjustments

in the various accounts of the state agencies must be made with a resultant increase in cost of government and possible delay in the performance of essential governmental services. It is therefore necessary that this act take effect immediately."

The department shall make apportionments to school districts from the money appropriated for child care centers on or before July 1 of the year for which appropriated and on or before January 1, and April 1. The amount of any apportionment shall be based on estimates made by the department of the total number of hours of attendance of children in the centers for the period commencing on the date such apportionment is made until the date for the next apportionment, or in the case of the apportionment for April 1st, until June 30th. The amount of each apportionment for each school district maintaining child care centers shall be not more than the estimated amount of state support per hour based on the computation provided for in Section 19607.4 of the Education Code, and in accordance with the estimated fees to be collected under the fee schedule as provided in Section 19607.2. Such repayment shall be made on or before the next July 15th, and the department may use such repayments to make payments to a school district in an amount not to exceed the amount by which the apportionments to such district were less than the amount which would have been apportioned to such district had such apportionment been based on actual rather than estimated attendance. Sec. 18. This act shall become operative on July 1, 1955.

Sec. 19. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect, to become operative July 1, 1955. A statement of the facts constituting such necessity is as follows:

To prevent the closing of established child care centers and the consequent disruption of the economic life of the State by the withdrawal from industry, essential during this troubled and unsettled time, of parents and others responsible for the care of minor children, it is necessary that public funds be made available for financial assistance to child care centers where a demonstrated need for such centers can be shown so that parents who are engaged or hereafter engage in work may have assurance of proper care for their minor children during the hours of their employment or for the proper care of children one of whose parents may be incapacitated by illness or other disability."

### COMMUNICATIONS

The following communication was received and read and ordered printed in the Journal:

SENATE, CALIFORNIA LEGISLATURE  
April 18, 1955

*Hon. Harold J. Powers*  
*President of the Senate*

DEAR MR. PRESIDENT: This is the sixty-ninth calendar day. There are 50 calendar days remaining, but if we omit Saturdays and Sundays, we will have only 37 days in which to enact legislation.

On the conclusion of the sixty-eighth calendar day of last session, we had received from committee 205 more bills than we have received from committee this session, also we had passed 146 more bills than we have passed this session. It might be reasonable to construe this difference in the number of bills received from committee as indicating that we are not going to pass as many bills this session as we did last.

Last session we passed a total of 2,320 bills. Subtracting the number of bills we have passed this session, plus the difference between the number we have received from committee this session and the number we had received at the corresponding time of last session from the total number of bills we passed last session leaves a balance of 1,716 bills, or an average of 47 measures per day for the remaining 37 days upon which it is reasonable to expect that we will meet.

We must remember that June 8th will be the last day of this session.

Respectfully submitted,

J. A. BEEK, Secretary of the Senate

## Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1246.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, April 7, 1955

To the Honorable Members of the Senate  
Sacramento, California

GENTLEMEN:

**Senate Bill No. 1246**, "An act to add Chapter 4 to Division 3 of the Health and Safety Code, relating to pet birds and public health, and making an appropriation,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

54206. Any applications for assistance under Article 4.5, Chapter 5, Part 1, of this division, which were filed prior to December 31, 1954, shall be deemed filed pursuant to this chapter, unless the board has, prior to the effective date of this chapter, loaned money pursuant to such application.

All money in such fund, including any money deposited in such fund from any source whatsoever after the effective date of this chapter, is hereby continuously appropriated without regard to fiscal years for expenditure for loans pursuant to Article 2 or for the repair, replacement, construction, or reconstruction of buildings and public facilities pursuant to Article 3. The board may require such security as it deems necessary or desirable for such loans. The maximum term of an agreement shall be 20 years. The board may require a shorter repayment period.

54231. A loan shall not be made if it would provide for an indebtedness or liability contrary to the provisions of Section 18 of Article XI of the Constitution unless, at an election called by the governing body of the local agency two-thirds of the qualified electors of the local agency voting thereat have authorized the governing body of the local agency to accept, expend, and repay the amount of the loan under this article. Such election shall be held in accordance with provisions of law for the incurring of bonded indebtedness by the local agency, as near as the same may be applicable. Except as may be prohibited by this section, a loan may be made to a local agency and the local agency may accept such a loan, notwithstanding any other provision of law limiting or prohibiting the creation of any indebtedness on the part of the local agency.

The notice shall state the work to be done or materials or supplies to be furnished and the time and place bids will be opened.

54272. The board may delegate to its executive officer the authority to approve construction change orders which do not result in an increase in the cost of the building or public facility being repaired, replaced, constructed, or reconstructed.

54273. The board may let contracts without the approval of plans by the Division of Architecture of the Department of Public Works. When the board deems it necessary or advisable, it may consult with other state agencies concerning buildings or other public facilities to be repaired, replaced, constructed, or reconstructed pursuant to this article.

The existing bridge and the additional Carquinez Bridge may be operated as a single unit.

30702. For the purpose of obtaining funds to carry out the provisions of this article, the authority is authorized to issue revenue bonds. Except as herein otherwise provided, the provisions of the California Toll Bridge Authority Act are hereby made applicable to such revenue bonds, and the authority and the department are authorized to do any and all things pursuant to law necessary to finance, construct and complete the bridges mentioned in this article and the improvement of the existing bridge. The authority may authorize the issuance of bonds in series in an amount estimated to be sufficient to complete the entire work authorized hereunder in successive stages, and may provide for the issuance and sale of sufficient revenue bonds to finance the construction of the additional Carquinez Bridge and the modification, improvement and reconstruction of the existing bridge as the initial stage of such work. The authority may insert in the bond indenture or resolution authorizing such bonds such conditions as it deems necessary upon the issuance and sale of the additional bonds necessary to finance the acquisition, construction and completion of the Benicia-Martinez Bridge. The revenues of each bridge need not be accounted for separately, but may be allocated as security for all of the bonds issued or to be issued hereunder as the authority may determine.

The authority may provide for the collection of tolls upon the existing bridge and the additional Carquinez Bridge under such rules and regulations as the authority deems necessary in order to operate both bridges as a single toll bridge. No tolls shall be charged for the use only of the approaches of any of such bridges as said approaches are defined in Section 30700. Subject to the limitations provided in this article, such tolls shall be used and applied as may be provided in a bond indenture or resolution of the authority authorizing the issuance of bonds for (a) the payment of principal and interest on said bonds; (b) the creation, establishment and maintenance of reserve and other funds for the protection or retirement of such bonds; (c) operation and insurance expenses, and (d) any other charges in connection with the construction, operation, insuring, and financing of said bridges and the improvement of the existing bridge as may be determined by the authority, including the establishment of rehabilitation and improvement funds for further rehabilitation and improvement of the bridges. Tolls shall continue to be collected upon the existing bridge, the additional Carquinez Bridge, and the Benicia-Martinez Bridge until all revenue bonds issued under this article have been fully paid and retired.

30704. The cost of operation of the existing bridge, the additional Carquinez Bridge, and the Benicia-Martinez Bridge, including the cost of insurance against loss of tolls or other revenue therefrom shall be paid from the tolls and revenue received from the use and operation of said bridges. The cost of physical maintenance, including the cost of insurance of said bridges against all risks, shall be paid by the department out of funds available to it for the maintenance of state highways. The department shall provide all engineering services for the work authorized in this article and the cost thereof shall be paid from funds available for the construction of state highways in Solano and Contra Costa Counties.

30705. The bridges referred to in this article shall become toll free as soon as all bonds issued under this article are fully paid and retired.

While any revenue bonds issued pursuant to this article are outstanding, at such time as funds may be made available to the State of California from any federal interstate or main line highway system program in excess of federal allotments existing on January 1, 1955, the proportionate share of such funds which would have been allotted to the bridges mentioned in this article, or any of them, or the refund obtained because of the construction thereof, to the extent permitted by federal law, shall be credited to Solano and Contra Costa Counties in the proportions

expended in each county (the cost of the bridges being evenly divided) for expenditure in accordance with law for construction on the state highways located in said counties.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Traffic congestion is becoming more and more acute on the existing Carquinez Bridge and the portions of state highways leading to and from it, resulting not only in economic loss, but in hazards to traffic using the same; existing ferry accommodations between Benicia and Martinez are wholly inadequate; all resulting in a serious impediment to workers attempting to reach the military installations and defense industries in the areas affected. STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, CALIFORNIA, April 11, 1955

*Hon. Clarence Ward*

Constitutionality of Senate Bill No. 1558, Production of  
Oil—No. 9378

DEAR SENATOR WARD:

*Question*

You have requested our opinion on the constitutionality of Senate Bill No. 1558 as it will read if certain proposed amendments are adopted.

*Opinion*

The bill with the proposed amendments is, in our opinion, constitutional insofar as it confers the power to make recommendations upon the the State Oil and Gas Supervisor and permits oil producers to comply or agree to comply therewith. But, insofar as it confers a similar power upon committees of oil producers, it is open to an objection that it may be an unconstitutional delegation of legislative power to private individuals. In the absence of conclusive judicial precedent in California, however, and in view of the general presumption of constitutionality, we think that portion of the bill might be sustained as well, although we are unable to reach a firm conclusion on the point.

*Analysis*

In a prior opinion of this office addressed to Assemblywoman Donahoe, dated April 5, 1955, No. 8797, we expressed the opinion that Senate Bill No. 1558, as amended by the Senate on March 23, 1955, would be unconstitutional. We concluded that the bill was a special law and conferred upon a named committee, the Conservation Committee of California Oil Producers, special privileges in violation of Article I, Sections 11 and 24, and Article IV, Section 25, subdivisions 19 and 33, of the Constitution of California. The proposed amendments would meet this objection by conferring the power to make recommendations upon the Conservation Committee of California Oil Producers "or any other committee of oil producers" or the State Oil and Gas Supervisor.

As so amended, the bill will be general in its application, and thus not violative of the enumerated constitutional provisions. However, there are other points which should be considered.

If the proposed amendments are adopted, Senate Bill No. 1558 will read (additions and deletions are shown in strikeout and italic):

“Article 8. Recommendation of Maximum  
Efficient Rates of Production

“3450. The Legislature takes notice of the existence of the Conservation Committee of California Oil Producers and of the fact that said committee for a number of years last past, in the interest of the conservation of oil and gas, has made recommendations of maximum efficient rates of production and for the intrapool distribution of such maximum efficient rates of production with respect to oil pools, capacity production from which pools would result in a loss of ultimate production. The Legislature declares that ~~such~~ recommendations *for such purpose* are in the interest of the conservation of the oil and gas resources of this State and that it is lawful for said committee *or any other committee of oil producers* to issue such recommendations *as to any such oil pool* and for producers of oil to comply therewith or to agree to comply therewith, provided:

“(a) Copies of all such recommendations shall be currently delivered to the supervisor and shall be open to public inspection in the office of the supervisor; and

“(b) ~~Such~~ *Any such* committee shall make available to the supervisor its records, files, minutes, reports and other data pertaining to such recommendations.

“The supervisor in his discretion may join in any such recommendations or may express his disapproval thereof.

“The supervisor, in the absence of such recommendations by ~~said committee~~ *a committee of oil producers* with respect to any of such pools, or if the supervisor deems *any* such recommendations to be insufficient or incorrect, may issue recommendations with respect to any such pools on said subject matter, *and it shall be lawful for producers to comply therewith or to agree to comply therewith*. Neither a disapproval by the supervisor nor a recommendation by him shall constitute a basis for implying any obligation for producers of oil to comply with such disapproval or recommendation.

“*Nothing herein contained shall be deemed to permit the production of gas in violation of Articles 5 and 6 of Chapter 1 and Chapter 2 of this division.*”

The first sentence of the bill is unchanged by the proposed amendments. It constitutes a legislative recognition of the works of the Conservation Committee of California Oil Producers. With respect to it, one of two alternatives is true: either it is meaningless and has no legal effect, or, if it has some legal effect, it is special legislation and confers a special privilege upon a named committee. If it is meaningless and without legal effect, it, of course, has no effect upon the constitutionality

of the bill. But if it has some legal effect, it is open to the same constitutional objections raised in our prior opinion to Assemblywoman Donahoe. However, with the proposed amendments, it is a severable part of the bill, and its unconstitutionality would not affect the validity of the bill as a whole (*In re Bell*, 19 Cal. 2d 488, 497; 11 Cal. Jur. 2d 425).

The remaining point to be considered is that the bill, with the proposed amendments, has the effect of authorizing the State Oil and Gas Supervisor or private committees to suspend the operation of state laws in particular situations. The bill authorizes the supervisor or any committee of oil producers to make recommendations of the maximum efficient rates of production with respect to oil pools, and declares (a) that it is lawful for the supervisor or the committees to make such recommendations as to any oil pool, (b) that it is lawful for producers of oil to comply therewith, and (c) that it is lawful for producers of oil to agree to comply therewith. If the recommended conduct with reference to the rate of production is such that production at that rate would constitute a violation of state law, either written or unwritten, such conduct becomes lawful, and by virtue of the recommendation, state laws otherwise applicable are suspended.<sup>1</sup> The same is true, if the agreement of producers would be a violation of state law. Thus, an agreement to comply with the recommendations would be valid, and state laws which would otherwise prohibit such an agreement would be suspended.<sup>2</sup> The power to suspend the operation of state law is legislative in character (11 Am. Jur. 943-945), and any statute that attempts to delegate such power is subject to the usual rules concerning the delegation of legislative powers (11 Am. Jur. 944); i.e., there must be a sufficient standard established to guide the exercise of the delegated power (11 Cal. Jur. 2d 482).

In the case of Senate Bill No. 1558 the standard established is vague. It is expressed as the power to make "recommendations of maximum efficient rates of production and for intrapool distribution of such maximum efficient rates of production with respect to oil pools, capacity production from which pools would result in a loss of ultimate production." However, considering the nature of oil in place and the varying circumstances in which it is found and produced, we are of the opinion that the standard established is sufficient (*Palmer Oil Corp. v. Phillips Petroleum Co.* (Okla.), 231 Pac. 2d 997, 1002; *Wotton v. Busch*, 41 Cal. 2d 460, 468; *People v. Associated Oil Co.* 211 Cal. 93, 108; *Bandini Petroleum Co. v. Superior Court*, 110 Cal. App. 123, 138; 37 A.L.R. 2d 438).

Insofar as the delegation made by Senate Bill No. 1558 is to the State Oil and Gas Supervisor, an official agency of the State, we believe there would be no question of its constitutionality. (*Palmer Oil Corp. v. Phillips Petroleum Co.*, *supra*) But it is not entirely so made. It is

<sup>1</sup> The proposed amendments would provide that the recommendations shall not supersede state laws relating to the production of gas found in Articles 5 and 6 of Chapter 1 and of Chapter 2, Division 3, of the Public Resources Code. This language, however, does not save the effect of other laws, written and unwritten, which may affect the rate of production of oil.

<sup>2</sup> For example, the Cartwright Act, Business and Professions Code, Sec. 16720. It should be clearly understood that this office expresses no opinion as to the applicability of that act to any agreement of oil producers to limit rates of production. That question can be decided only upon a determination of the legal effect of facts not before this office.

also granted to private committees, namely the Conservation Committee of California Oil Producers, or any other committee of oil producers. And so the issue is raised whether the Legislature may delegate legislative power to a private group. Upon this question, judicial authorities throughout the United States are in a state of confusion (11 Am. Jur. 933; 3 A.L.R. 2d 188; 51 Har. L.R. 201; and compare *Carter v. Carter Coal Co.* 298 U.S. 238, 80 L. Ed. 1160, 56 S. Ct. 855). In California, the same confusion exists to the extent that there are no clearly enunciated principles governing the proposition (2 Cal. Jur. 2d 123; 11 Cal. Jur. 2d 504. Note: *Nat. Milk etc. Assn. v. City etc. of S.F.*, 20 Cal. 2d 101, at 115, where the question was avoided by construction of the ordinance involved. Compare *State Board v. Thrift-Delux Cleaners*, 40 Cal. 2d 436, 448, which may indicate an attitude of the California Supreme Court upon this issue). In view of this state of the law, and of the general presumption in favor of the constitutionality of statutes (11 Cal. Jur. 2d 407) we are unable to reach a definitive opinion on this point.

Very truly yours,

Recommendation of Maximum Efficient Rates  
of Oil and Gas Production—No. 9868

DEAR SENATOR WARD:

*Question*

You have asked us whether there is any law which would compel an oil producer to comply or to agree to comply with recommendations of a committee of oil and gas producers or the State Oil and Gas Supervisor, as such recommendations are declared lawful by Senate Bill No. 1558.

*Opinion*

We are unable to find any other provision of law requiring such compliance.

*Analysis*

Insofar as here material, Senate Bill No. 1558 permits committees of oil producers and the State Oil and Gas Supervisor to make recommendations of maximum efficient rates of production and for the intrapool distribution of such maximum efficient rates of production with respect to oil pools, capacity production from which pools would result in a loss of ultimate production. The bill further makes it lawful for oil producers to comply with such recommendations or to agree to comply therewith so long as there is no violation of the provisions of the Public Resources Code prohibiting the wasting of natural gas.

We have given careful consideration to other provisions of law with respect to this matter, and particularly Division 3 of the Public Resources Code, and find no provision that would in any way require

compliance with the recommendations either of a committee of oil producers or of the State Oil and Gas Supervisor.

The provision most clearly bearing upon the matter is that requiring the State Supervisor so to supervise the drilling, operation, maintenance, and abandonment of wells as to prevent, as far as possible, damage to underground oil and gas deposits (P. R. C. 3106), but such provision appears to contemplate only voluntary compliance by producers (see 17 Ops. Cal. Atty. Gen. 119).

Our conclusion is supported by the statement of the district court of appeal with respect to the provisions which we have particularly considered:

"The Legislature has been careful to state and expressly provide the particular acts which it deems to be a waste of oil and gas, and has provided the necessary procedure for presenting such question \* \* \*, but where unitization or repressuring is referred to, it has expressly left such matters to agreement between the parties concerned, subject to the supervisor's approval" (*Western Gulf Oil Company v. Superior Oil Company*, 92 Cal. App. 2d 299, at 312).

SACRAMENTO, CALIFORNIA, April 5, 1955

*Hon. Dorothy M. Donahoe*  
*Assembly Chamber*

Senate Bill No. 1558—No. 8797

DEAR MISS DONAHOE:

#### *Question*

You have asked us the following question:

If Senate Bill No. 1558, as amended in Senate March 23, 1955, is enacted, what would be the effect of the declarations therein with respect to a violation of the Sherman Antitrust Act?

#### *Opinion*

In our opinion Senate Bill No. 1558 would have no effect upon a prosecution for a violation of the Sherman Antitrust Act.

#### *Analysis*

The Sherman Antitrust Act is a federal statute (Secs. 1-7, incl. Title 15, United States Code) which declares that contracts, combinations and conspiracies, in restraint of trade or commerce among the several states, or with foreign nations, are illegal (See Sec. 1, Title 15, U.S.C.).

A combination to limit or restrict the production of a commodity in aid of an attempt to monopolize interstate commerce in the commodity is within the scope of the prohibitions of the Sherman Antitrust Act (*Gibbs v. McNeeley*, 118 Fed. 120).

Senate Bill No. 1558 would declare that certain contracts between oil producers would be lawful. In these contracts the producers would

agree to comply with certain recommendations as to the "maximum efficient rates of production" from oil pools as to which "capacity production would result in a loss of ultimate production." Whether or not such an agreement would constitute a violation of the Sherman Antitrust Act is immaterial to our question. If such an agreement is not a violation of such law our conclusion that Senate Bill No. 1558 would have no effect on the matter is obviously correct.

If, however, such an agreement as is made lawful by Senate Bill No. 1558 would constitute a violation of the Sherman Anti Trust Act, the bill would nevertheless have no effect upon a prosecution under that act. The fact that an agreement may be valid under state law does not mean that it may not violate the federal act (*Northern Securities Co. v. United States*, 193 U. S. 197, 48 L. Ed. 679). In any federal anti trust case the primary question is whether or not the combination or agreement effects interstate commerce. It is obvious that a contract which is legal under state law could affect interstate commerce just as much, if not more, than one which was illegal under state law.

The situation here involved is different from that involved in *Parker v. Brown*, 317 U. S. 341, 87 L. Ed. 315. That case involved a marketing program for raisins under the California Agricultural Prorate Act. The program, without doubt, did affect interstate commerce in raisins. However, the program was not a result of a combination or agreement among the individuals engaged in the raisin business but was imposed upon such individuals under the police power of the State and violation of the program was punishable by both fine and a civil penalty (See p. 347, 317 U. S.). The courts said that the purpose of the Sherman Act was to suppress combinations to restrain competition and attempts to monopolize by individuals and corporations (p. 352, 317 U. S.).

The court then said, "The State in adopting and enforcing the prorate program made no contract or agreement and entered into no conspiracy in restraint of trade or to establish monopoly. but as sovereign, imposed the restraint as an act of government which the Sherman Act did not undertake to prohibit" (p. 352, 317 U. S.).

The situation presented by Senate Bill No. 1558 is, of course, quite different from that involved in *Parker v. Brown* above cited. Senate Bill No. 1558 not only does not impose mandatory limitations or restrictions upon oil production under the police power but, in the last sentence of the bill, expressly negatives any implication that the rates of production are mandatory. That sentence reads: "Neither a disapproval by the supervisor nor a recommendation by him shall constitute a basis for implying any obligation for producers of oil to comply with such a disapproval or recommendation."

Therefore, the situation presented by Senate Bill No. 1558 seems to come squarely with the proposition declared in *Northern Securities Co. v. United States*, above cited, that compliance with state law does not give immunity to those who violate the Sherman Anti Trust Act. It should be understood, of course, that in preparing the foregoing opinion

we have not considered the specific facts involved and we are not assuming that any of the activities of the conservation committee have been in violation of the Sherman Anti Trust Act.

Very truly yours,

### COMMUNICATIONS

The following communications were received and read, ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, April 18, 1955

*Hon. Joseph A. Beek, Secretary  
California State Senate  
State Capitol, Sacramento, California*

DEAR MR. BEEK: At the March 29, 1955 meeting of the Water Project Authority, the following motion was adopted:

"On motion of Attorney General Brown, seconded by State Treasurer Johnson, and carried, the executive officer was authorized and directed to send to the Legislature as a supplement to the report entitled 'Report of the Executive Officer on Status of State Acquisition of the Central Valley Project,' dated February 1955, and heretofore transmitted to the Legislature on March 1, 1955, the draft of congressional bill to authorize state purchase of the Central Valley Project as prepared by the legal staffs of the Attorney General and the authority."

As directed by the authority in the above motion, there are transmitted herewith, for the information of the Members of the Senate, 40 copies of a draft of a congressional bill prepared at the request of the authority by the legal staffs of the authority and the Attorney General. The draft would authorize the Secretary of the Interior to negotiate an agreement with the authority for state acquisition of federally authorized features of the Central Valley Project in accordance with stated principles and bases, subject to final approval by the Congress of any executed agreement.

The draft of bill should be considered as a supplement to the "Report of the Executive Officer on Status of State Acquisition of the Central Valley Project," dated February, 1955, and transmitted by the authority to the Legislature on March 1, 1955.

Very truly yours,

A. D. EDMONSTON, Executive Officer

Attach.

### A BILL

To authorize and direct the Secretary of the Interior to negotiate an agreement for the sale of certain project facilities and related property in the State of California.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.* That the Secretary of the Interior is hereby authorized and directed to negotiate an agreement with the Water Project Authority, an agency of the State of California, or any succeeding authorized state agency or district, hereinafter referred to as "the authority," for the sale of any or all units of the Central Valley Project, California, and related property; provided, that the agreement which may be negotiated to the satisfaction of the Secretary of the Interior and the authority shall be subject to final approval by the Congress.

SEC. 2. Such agreement shall cover, among other things, the units to be sold under such agreement which shall include all units of the project completed at the date of sale, including irrigation distribution systems; the purchase price thereof, the manner of payment of the purchase price, maintenance and operation obligation, and such other matters as in the opinion of the Secretary of the Interior should be covered by the agreement, and shall be in accordance with the principles set forth in the following sections of this act. Such agreement shall also provide for the future sale of subsequently completed units of the project, including irrigation distribution systems, which sale shall be also in accordance with such principles.

SEC. 3. The purchase price shall be computed as follows:

(a) The United States shall be paid the construction costs of the units to be sold, plus interest on any unpaid portion of such costs allocated to commercial power and municipal and industrial water purposes from the date such units went into operation for such purposes to the date of sale, minus the following credits:

- (1) The amount of such construction costs allocated to flood control, navigation, fish and wildlife, and other nonreimbursable project purposes.
- (2) The amount of payments received from project water and power customers as of the date of sale in excess of operation, maintenance and replacement costs of the project properly allocable to water and power operations as of the date of sale.
- (3) A sum equal to the difference between the unamortized portion of the construction costs allocated to irrigation, including irrigation distribution systems, (repayable under existing federal law in installments without interest over a period of years) and the present worth of such repayment as of the date of sale. The present worth shall be computed on the basis of 40 equal annual installments assumed to commence five years after the date of sale, using an assumed interest cost to the United States as set forth in (c) of this section.
- (4) A sum equal to the present worth of estimated annual operation, maintenance and replacement costs properly allocable to nonreimbursable project purposes over a period of 50 years from and after the date of sale.
- (5) Revenues credited to the project replacement fund with interest to the date of sale.

(b) Allocations of cost for the purpose of computing the purchase price shall be made in accordance with the principles in House Document 146, Eightieth Congress, First Session.

(c) In computing interest and present worth, an interest rate shall be used based on the average cost of money to the United States at the date of execution of the agreement of sale.

SEC. 4. The portion of the purchase price attributable to irrigation, including irrigation distribution systems, or any part thereof may, at the option of the authority be paid in revenue bonds of the authority, bearing interest at the same rate as provided in Section 3(c), payable from Central Valley Project net revenue, in not more than 50 years from date of sale, and secured by a lien on such revenue second only to the lien of revenue bonds issued by the authority for public sale to raise the funds to pay the balance of the purchase price; such balance shall be paid in cash.

SEC. 5. Upon sale of project units, the authority shall assume all obligations of the United States relating to the units sold and shall operate such units for flood control and navigation as required by the United States. The authority shall also assume all obligations of the United States relating to the acquisition of water rights for the units sold, including litigation concerning such water rights.

SEC. 6. The agreement shall provide for the establishment of a special fund in the Treasury of the United States into which, until otherwise determined by the Congress, all payments from the authority for the project units sold shall be deposited, and the funds of which shall be subject to appropriation by the Congress for the purposes only, first, of completing construction of units of the project still owned by the United States which are uncompleted as of the date of sale and, second, constructing units of the project which may be authorized for federal construction or financial assistance after the date of sale.

15830. The bonds issued to finance the construction of a public building or buildings pursuant to this part shall be special obligations of this State secured solely by the revenues, rentals, or receipts received from the operation of the public building or buildings financed by such bonds.

No bond issued or sold pursuant to this part shall be or become a lien, charge, or liability against the State of California or against its property or funds except to the extent of the pledges expressly made by this part. Every bond issued pursuant to this part shall contain a recital on the face thereof stating that neither the payment of the principal nor any part thereof, nor any interest thereon, constitutes a debt, liability, or general obligation of the State of California other than as provided in this part. The board has no power at any time or in any manner to pledge the credit or taxing power of the State, other than as provided in this part.

15831. All bonds issued under this part shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp, and the bonds shall be signed, countersigned, and endorsed by the officers who shall be in office on the date of issuance thereof, and each of said bonds shall bear an impress of the Great Seal of the State of California. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of issuance of the bond to which said coupons pertain. The bonds or coupons so signed, countersigned, endorsed, and sealed, when sold, are valid although the sale thereof be made at a date or dates upon which the officers having signed, countersigned, and endorsed said bonds or coupons, or any or either of said officers, shall have ceased to be the incumbents of the offices held by them at the time of signing, countersigning, or endorsing said bonds or coupons. Each bond issued under this part, if subject to call or redemption prior to maturity, shall contain a recital to that effect.

The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division and may be determined and fixed by the board by resolution adopted at or after the sale of said bonds, but not exceeding in any case 6 percent per annum payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (if any) from the total amount of interest which the State would be required to pay from the date of sale to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, and the award shall be made on the basis of the lowest net interest cost to the State. The lowest net interest cost to the State shall be computed between the dates aforesaid according to standard bond interest tables.

15832. Upon receipt of a resolution of the board authorizing the issuance of bonds, the State Treasurer shall provide for their preparation in accordance with the resolution. The bonds authorized to be issued shall be sold by the State Treasurer to the highest bidder for cash at public sale upon sealed bids in such parcels and numbers as the State Treasurer shall be directed by the board, but the State Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which shall have accrued thereon between the date of purchaser's payment for said bonds and

the last preceding interest maturity date; and the State Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as the State Treasurer may select. Each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for five thousand dollars (\$5,000), drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Public Buildings Construction Fund, and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the State Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to said bonds or by reason of said bid, or to the recovery of said deposit accompanying said bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. Signature of the State Treasurer may be by signature stamp.

15833. Due notice of the time and place of sale of all bonds shall be given by the State Treasurer by publication in one newspaper published in the City and County of San Francisco, by publication in one newspaper published in the City of Sacramento, and by publication in one newspaper published in the City of Los Angeles once a week during two weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of five hundred dollars (\$500) for each sale so advertised.

15835. The bond or interim receipt is a negotiable instrument unless there is an express recital on its face that the bond or interim receipt is nonnegotiable.

15836. Bonds issued pursuant to this part are a legal investment for any state special or trust fund notwithstanding any provision of law limiting the investments which may be made by such special or trust fund.

15837. Whenever the board deems that it will increase the salability or the price of the bonds to obtain, prior to or after sale, a legal opinion, other than that of the Attorney General, as to the validity of the bonds, the board may authorize the State Treasurer, or the Department of Finance, or both, to obtain such a legal opinion. Payment for such legal services shall be made out of the proceeds of the sale of the bonds.

15838. Any resolutions authorizing any bonds may contain provisions which are part of the contract with the bondholders as to:

(a) Pledging the full faith and credit of the board, but not of the State or any local agency, for such obligations, or restricting the credit to all or any of the revenues, rentals, or receipts of the board from all or any projects or properties.

(b) The construction, improvement, operation, extension, enlargement, maintenance, and repair of any projects and the duties of the board with reference thereto.

(c) The terms and provisions of the bonds.

(d) Limitations on the purposes to which the proceeds of the bonds, then or thereafter to be issued, or of any loan or grant by the United States, may be applied.

(e) The rate of rentals and other charges for use of the facilities of, or for the services rendered by, the board, including limitations upon the power of the board to modify any leases or other agreement pursuant to which any rentals or other charges are payable.

(f) The setting aside of reserves or sinking funds and the regulation and disposition of them.

(g) Limitations on the issuance of additional bonds or certificates.

(h) The terms and provisions of any deed of trust or indenture securing the bonds, or under which the bonds are issued.

(i) Any other agreements with the bondholders.

15839. The board may enter into any deeds of trust, indentures, or other agreements with any bank or trust company, or other person in the United States having power to enter into such agreements, including any federal agency, as security for such bonds, and may assign and pledge the revenues, rentals, or receipts of the board thereunder. The deeds of trust, indentures, or other agreements may contain such

provisions as are customary in the instruments, or as the board authorizes, including but without limiting provisions as to:

(a) The construction, improvement, operation, maintenance, and repair of any projects, and the duties of the board with reference thereto.

(b) The application of funds and the safeguarding of funds on hand or on deposit.

(c) The rights and remedies of the trustee and the holders of the bonds, which may include restrictions upon the individual right of action of the bondholders.

(d) The terms and provisions of the bonds, or the resolutions authorizing the issuance of the bonds.

15840. The board may provide, by resolution, for the issuance of refunding bonds for the purpose of refunding any bonds of the board issued pursuant to this part and then outstanding, either by voluntary exchange with the holders of the outstanding bonds, or to provide funds to redeem and retire the outstanding bonds, with accrued interest, and any premium payable on the bond at maturity or at any call date. The issuance of the refunding bonds, the maturities and other details of the bonds, the rights of the bondholders, and the duties of the board in respect to the bonds, are governed by the foregoing provisions of this part insofar as they are applicable. Refunding bonds may be issued by the board to refund bonds originally issued, or to refund bonds of the board previously issued for refunding purposes.

15841. The rights and remedies conferred by this part upon or granted to bondholders are in addition to and not in limitation of any rights and remedies lawfully granted to such bondholders by the resolutions providing for the issuance of bonds, or by any deed of trust, indenture, or other agreement under which the bonds are issued.

If the board defaults in the payment of principal or interest on any of the bonds after the principal or interest becomes due, whether at maturity or upon call for redemption, and if such default continues for a period of 30 days, or if the board fails or refuses to comply with the provisions of this part or defaults in any agreement made with the bondholders, the holders of 25 percent in aggregate principal amount of the bonds then outstanding by instruments filed in the office of the County Recorder of the County of Sacramento, and acknowledged in the same manner as a deed to be recorded except as this right is limited under the provisions of any deed of trust, indenture, or other agreement, may appoint a trustee to represent the bondholders for the purposes provided in this part. The trustee or any trustee under any deed of trust, indenture, or other agreement may, and upon written request of the holders 25 percent in principal amount of the bonds then outstanding, or such other percentage as is specified in the deed of trust, indenture or other agreement, shall in his name:

(a) By proper proceedings and actions enforce all rights of the bondholders, including the right to require the board to collect rates, rentals, and other charges adequate to carry out any agreement as to the revenues, or the pledge of the revenues or receipts of the board, and require the board to carry out any other agreements with or for the benefit of the bondholders, and to perform its duties under this part.

(b) Bring suit upon the bonds.

(c) By an action require the board to account as if it were the trustee of an express trust for the bondholders.

(d) By an action enjoin any acts or things which may be unlawful or in violation of the bondholders' rights.

(e) By notice in writing to the board declare bonds due and payable, and if all defaults are made good then with the consent of the holders of 25 percent of the principal amount of the bonds then outstanding, or such other percentage as is specified in any deed of trust, indenture, or other agreement, annul the declaration that bonds are due and payable.

15842. A trustee, appointed pursuant to Section 15841, or acting under a deed of trust, indenture, or other agreement, whether or not all bonds have been declared due and payable, may have a receiver appointed. The receiver may, to the same extent that the board itself could do, enter and take possession of the facilities of the board, or any parts of the board, the revenues, rentals, or receipts which are applicable to the payment of the bonds in default and operate and maintain the facilities and collect and receive all rentals and revenues thereof arising therefrom in the same manner as the board might do. The receiver shall deposit money in a separate account and apply it in such manner as the court directs. In any action or proceeding by the trustees, the fees, counsel fees, and expenses of the trustees, and of the receiver, and all costs and disbursements allowed by the court, is a first charge on any revenues and receipts derived from the facilities of the board, the revenues or receipts from which are or may be applicable to the payment of the bonds in default. The trustee shall have and possess all the powers necessary or appropriate for the exercise of any functions specifically set forth in this part or incident to the general representation of the bondholders in the protection and enforcement of their rights; provided, however, that nothing in this section or any other section in this part shall authorize any trustee appointed pursuant to Section 15841, for the purpose of operating and maintaining any facilities of the board,

to sell, assign, mortgage, or otherwise dispose of, any of the assets of whatever kind and character belonging to the board.

15843. In addition to all other rights and all other remedies the holder of bonds of the board may by an action at law enforce his rights against the board, including the right to require the board to collect fees, rentals, and other charges adequate to carry out any agreement as to fees, rentals, or other charges or income, revenue and receipts and require the board to carry out any of its covenants and agreements with the bondholders and perform its duties under this part."

Proposed capital outlay appropriations shall be set forth by land, building, and equipment classifications. (b) The tentative budget shall also contain an amount to be known as the general reserve in such sum as the governing board may deem sufficient, for the next succeeding fiscal year, to meet the cash requirements to which the district's credit may be legally extended for that portion of said next succeeding fiscal year until adequate proceeds of the taxes levied for, or apportionment of state funds made to, the district during such succeeding fiscal year are available to the district.

(c) The tentative budget may also contain an amount to be known as the undistributed reserve. The funds in the undistributed reserve shall be available for appropriation by a two-thirds vote of the members of the governing board, to cover expenditures that have not been provided for or that may have been insufficiently provided for, or for unforeseen requirements as they may arise.

estimated expenditures shall be set forth for comparison with the estimated requirements of the district in the order by functions as prescribed in Section 6301(a). The cash balances shall be segregated to show separately the amounts derived by receipts from bond sales and gifts or donations by reason of bond sales. The tentative budget also shall show estimated apportionments from the State School Fund, and from state and federal sources for vocational education, vocational rehabilitation, or for other purposes for the ensuing fiscal year. The actual income from these sources for the [last preceding] current fiscal year also shall be shown.

(b) In addition to the above information the governing board shall furnish the county superintendent of schools with an estimate of the revenues from sources other than taxes on property anticipated during the *ensuing* fiscal year from the secured roll of the equalized assessment roll of the district for the year to which the budget is intended to apply, and the sources whence derived, compared with the estimated receipts from the same sources for the [last preceding] current fiscal year. Should the governing board fail to provide this information, it shall be supplied by the county superintendent of schools from his own records.

(c) The governing board shall compute the income to be derived from property contained in the unsecured roll of the equalized assessment roll of the district for the year as follows:

The board shall deduct an amount not to exceed 10 percent from the unsecured roll of the equalized assessment roll of the district for the year prior to the year for which the budget is to apply, using the tax rate of the district for the year prior to the year for which the budget is to apply.

SEC. 14. Section 6304 of said code is amended to read:

6304. The county superintendent of schools shall examine the tentative budget and after indicating thereon such changes as he deems desirable or necessary, shall return the tentative budget to the governing board on or before the [15th] *twentieth* day of [July] *April*, adding such information as is necessary to determine the amounts necessary to be raised by taxes on property for the year to which the budget is intended to apply.

SEC. 15. Section 6305 of said code is amended to read:

6305. The governing board shall make such changes in the tentative budget as it deems desirable or necessary, and said tentative budget, with such revisions, additions, and changes as have been made therein as provided in this article, shall constitute the publication budget for the period to which it is intended to apply. The publication budget shall be returned to the county superintendent of schools not later than the [twentieth] *thirtieth* day of [July] *April*. A copy of all publication school budgets shall be sent to the county auditor in such form.

SEC. 16. Section 6306 of said code is amended to read:

6306. (a) On or before the [eighth day of August, or on or before the tenth day of August in the case of a school district in which there is an average daily attendance of more than 10,000] *first day of June*, the governing board of each school district in which a public hearing is required in Section 6334 of this code shall finally adopt and file such budget with the county superintendent of schools, the county auditor, the county board of supervisors, and the Superintendent of Public Instruction. In the case of districts which are not required to hold a public hearing, the publication budget as approved by the governing board shall be filed with the county superintendent of schools, the county auditor, the county board of supervisors, and the Superintendent of Public Instruction immediately after its approval.

(b) The county superintendent of schools shall approve the adopted budget for each school district as officially adopted and submitted by its governing board and, not later than the [fifteenth day of August] *tenth day of June*, shall file one copy of the adopted budget of each school district with the board of supervisors, one copy with the auditor of his county, and one copy with the Superintendent of Public Instruction, together with a statement showing the amount of school district taxes required by each school district of the county.

(c) *After the budget for a school district has been filed with the county auditor as prescribed in this section, he shall not permit any change to be made therein that will alter the amount of money which must be provided by a school district tax.*

SEC. 17. Section 6334 of said code is amended to read:

6334. Except in districts where no district tax is levied and in elementary districts employing but one teacher, the publication budget for the ensuing school year to which it is intended to apply, showing the functions and objects of expenditure, cash balances, and all the appropriations from the State as required to be tabulated in Sections 6301-6302 of this code for the ensuing and last preceding fiscal year, and the district tax requirement for the school year to which the publication budget is intended to apply and for the last preceding school year, shall be published by the county superintendent of schools at least once in a newspaper of general circulation published within the district, or if there is no newspaper in the district, then in a newspaper published nearest to the district, prior to its adoption. The cost of the publication shall be a proper and legal charge against the school district or districts

for which the publication is made, and shall not exceed the rate fixed by the board of supervisors for official advertising. Publication shall be made during the [last] second week in [July] May of each year, and shall contain a notice that a public hearing will be held before the governing board of the school district, in a school-house in the district, or in some other place conveniently accessible to the residents of the district, during the [first] third week [of August] in May, at which any taxpayer in the district may appear and object to the proposed budget or any item of the budget. The hearing may be concluded on such publication budget when there are no requests on file for further hearing. The budget shall not be finally adopted by the governing board of the district until after the public hearing has been held.

Sec. 18. Section 6352 of said code is amended to read:

6352. He shall determine this amount by deducting from the total estimated needs of the school district as shown by its budget the total estimated income of the school district from all sources other than a school district tax for the [current] ensuing school year as estimated in the budget. The remainder, if any, shall be the minimum amount of the school district tax to be levied by the board of supervisors for the particular school district.

Sec. 19. Section 6361 of said code is amended to read:

6361. All income accruing to the school district in excess of the amounts required to finance the total proposed expenditures, including transfers to other school districts and funds, as shown in the budget of the school district shall be added to the general reserve of the school district, and shall not be available for appropriation by the school district for the [current] fiscal year to which the budget is applicable except by the following procedure. The governing board of the school district shall, by formal action of the board, pass a resolution setting forth the need according to major classification of school district expenditures to be met from any portion of the general reserve derived from assured income in excess of the total amount anticipated in the budget. The resolution shall be submitted to the county superintendent of schools. If the resolution is approved by the county superintendent of schools it shall, if it involves a sum in excess of one thousand dollars (\$1,000), be published in the same manner as the budget of the school district concerned is published. Upon the approval of the resolution and, where its publication is required, following its publication, the amount named in the resolution shall be appropriated to the major classification or classifications from the general reserve as set forth in the resolution.

The county superintendent of schools shall approve any resolution for the appropriation of income provided from state or federal sources for emergency needs of the school district to the extent that such income was not anticipated in the budget of the school district. Nothing in this section shall be construed to authorize the appropriation for current year purposes of income which would deplete the general reserve for the next succeeding fiscal year as provided in the budget of the school district.

On the first day of July of each year, the general reserve together with unexpended balances of appropriations and income in excess of anticipated income for the preceding fiscal year shall be placed to the credit of the school district, and [the school district shall include] all money so credited [in the balance shown in] shall automatically become subject to the budget for the [ensuing] fiscal year then commencing.

Sec. 20. If any change in time made by this act for doing any act or for incurring any obligation results in any inconsistency with the time prescribed in any other provision of law for doing any act or for incurring any obligation, then the time prescribed in such other provision shall be deemed to be so changed as to be consistent with this act.

Sec. 21. This act shall become operative on the first day of the calendar year next succeeding that during which it takes effect."

1202.1. In any proceeding under Section 1202, where the application to the commission states that the parties are not in agreement as to apportionment of costs, but the applicant is willing to advance the amount of money reasonably necessary to enable the respondent to complete the work which must be done by it, the commission shall set the application for hearing as soon as its calendar permits on the questions of (a) the necessity for the project, (b) the approval of the location and the engineering plans, including provisions for handling traffic during construction and the work to be performed by each party, and (c) the sum to be advanced by the applicant for the work to be done by the respondent. The commission shall render as promptly as possible an interim decision effective within twenty (20) days on said questions, reserving for later hearing and decision the question of apportionment of costs. In the event of the failure or refusal of the respondent to grant a right of entry to permit the applicant to proceed with the work to be performed by it or its contractor, applicant may, pursuant to Section 14 of Article I of the Constitution, obtain an order of immediate possession in a court of competent jurisdiction if a condemnation action has previously been filed in such court, or file such action and obtain an order of immediate possession in the event such action has not previously been filed, and upon obtaining such order, may proceed in the same manner as if a right of entry had been granted, and thereupon the same duties to proceed with

respondent's own work and integrate the same with that of applicant or its contractor, shall fall upon respondent.

In the final decision apportioning costs, the sum advanced by the applicant shall be credited against the applicant's share of said costs. In said final decision there shall also be credited against applicant's share of the costs any increases in said costs found by the commission to be directly attributable to respondent's wilful failure or refusal to proceed with its own work or to integrate said work with that of applicant or its contractor."

*The board may for such good cause as it shall determine, reduce the amount of, or modify any provisions relating to, any contribution required of a school district under the terms of an apportionment, other than any contribution required of such district under Section 5048 from the sale of bonds; provided, that the board may not, without the consent of the district, increase the amount of any district contribution under the terms of an apportionment, in the absence of mistake arising from any source, or misrepresentation, concealment, or omission, on the part of the district, intentional or otherwise. The provisions of this paragraph shall be applicable to apportionments heretofore or hereafter made.*

SEC. 4. Section 7737 of said code is amended to read:

7737. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it [to a school district under this chapter may be expended and such prescription shall be binding upon the governing board of such district except as it may be, for good cause, modified by the board.] or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and such prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for such cause as it sees fit. In determining funds which can be contributed by the district, the board may require the district to contribute unexpended balances of funds earmarked or encumbered by the district for furniture, equipment, or any other lawful purpose; provided, however, that changes or substitutions in the purposes for which such funds were earmarked or encumbered, with respect to such requirement under any apportionment heretofore or hereafter made, may be authorized by the board, or pursuant to its delegation, by the Director of Finance."

School districts are required to contribute towards the cost of school building aid projects, any unused balance remaining from capital outlay funds which are earmarked or encumbered for specific purposes other than the state aid application. Such items are listed in detail in the application. There are a number of cases where such funds are later expended for slightly different purposes than those reported in the approved application. Where such deviations occur, it has been held that amounts spent for items and quantities other than those specifically listed, must be applied towards the cost of the state aided project and that the State Allocation Board cannot later approve such deviations, even though they would have been approved originally and represent an equally necessary or a better utilization of district funds. Many school districts are therefore required to contribute amounts already spent for essential purposes, towards the cost of state aided projects. As a result the amounts involved cannot be paid either by the district or the State to meet the cost of state aided projects. It is necessary that this act take effect immediately so that the financing of urgently needed school facilities can be completed."

The provisions of subdivisions (a), (b), (c), and (d) of Section [7032] 7034 for average daily attendance and number of teachers hired shall apply to such districts.

No allowance for growth shall be made for such a district unless the excess units of average daily attendance for the period of the current fiscal year over units of average daily attendance of the corresponding period of the preceding fiscal year is sufficient to place the district within the requirements of a different subdivision of Section [7032] 7034, or is sufficient to place the district outside of the requirements of any of the subdivisions of Section [7032] 7034.

The Superintendent of Public Instruction shall allow to each school district for each unit by which the average daily attendance for each period of the then current fiscal year in the seventh and eighth grades of a junior high school exceeds such average daily attendance for the same period during the preceding fiscal year the following: for the first period, the sum of two hundred twelve dollars (\$212) multiplied by the ratio of days the regular day schools of the district were maintained during the first period of the then current fiscal year to 175 and, for the second period, the sum of two hundred twelve dollars (\$212) multiplied by the ratio of the difference between 175 and the days the regular day schools of the district were maintained during the first period of the then current fiscal year to 175.

**Amendment No. 4**

On page 1, line 1, after "is", insert "hereby amended to read as follows:

5500.5. Where a claim for compensation benefits is made on account of an occupational disease which may have arisen out of more than one employment, the application shall state the names and addresses of all employers, the places of employment, and the approximate periods of employment where the employee was exposed to the hazards of the occupational disease. If the application is not so prepared or omits necessary and proper employers, any interested party, at or prior to the first hearing, may request the commission to join as defendant any necessary or proper party. If such request is made prior to the first hearing on the application, the commission shall forthwith join the employer as a party defendant and cause a copy of the application together with a notice of the time and place of hearing to be served upon such omitted employer; provided, such notice can be given within the time specified in this division. If such notice cannot be timely given or if the motion for joinder is made at the time of the first hearing, then the commission, panel, commissioner, or referee before whom the hearing is held, if it is found that the omitted employer named is a necessary or proper party, may order a joinder of such party and continue the hearing so that proper notice may be given to the party or parties so joined. [Only one continuance shall be allowed for the purpose of joining additional parties.] Subsequent to the first hearing the commission shall join as a party defendant any additional employer when it appears that such employer is a proper party. [but the liability of such employer shall not be determined until supplemental proceedings are instituted.]

In any case involving a claim of occupational disease contracted as a result of more than one employment, the employee making the claim, or his dependents, may elect to proceed against any one or more of the employers named in the application. Where such an election is made, the employee must successfully prove his claim against any one or more of the employers [named,] *against whom he has so elected to proceed* and any award which the commission shall issue awarding compensation benefits shall be a joint and several award as against any two or more employers who may be held liable for compensation benefits. If, during the pendency of any claim wherein the employee or his dependents has made an election to proceed against one or more employers, it should appear that there is another proper party not yet joined, such additional party shall be joined as a defendant by the commission on the motion of any party in interest. [but the liability of such employer shall not be determined until supplemental proceedings are instituted. Any employer joined as a defendant subsequent to the first hearing or subsequent to the election provided herein shall not be entitled to participate in any of the proceedings prior to the commission's final decision, nor to any continuance or further proceedings, but may be permitted to ascertain from the employee or his dependents such information as will enable the employer to determine the time, place, and duration of the alleged employment. On supplemental proceedings, however, the right of the employer to full and complete examination or cross examination shall not be restricted.]

At any time within one year after the commission has made an award for compensation benefits in connection with an occupational disease, any employer held liable under such award may institute proceedings before the commission for the purpose of determining an apportionment of liability or right of contribution. Such a proceeding shall not diminish, restrict, or alter in any way the recovery previously allowed the employee or his dependents, but shall be limited to a determination of the respective contribution rights, interests or liabilities of all the employers joined in the proceeding, either initially or supplementally; provided, however, if the commission finds on supplemental proceedings for the purpose of determining

an apportionment of liability or of a right of contribution that an employer previously held liable in fact has no liability, it may dismiss such employer and amend its original award in such manner as may be required.

[In any proceeding before the commission for the purpose of determining an apportionment of liability or of a right of contribution where any employee incurred a disability or death resulting from silicosis in underground metal mining operations, the determination of the respective rights and interests of all of the employers joined in the proceedings either initially or supplementally shall be as follows:

(a) All employers whose underground metal mining operations resulted in a silicotic exposure during the period of the employee's employment in such operations shall be jointly and severally liable for the payment of compensation and of medical, surgical, legal and hospital expense which may be awarded to the employee or his estate or dependents as the result of disability or death resulting from or aggravated by such exposure.]

[(b) If any of the employers who have not contributed to payment of the original award shall be without the commission's jurisdiction, or are dead, insolvent, or not subject to enforcement of awards against them for such contributions, either directly or through solvent insurance carriers, then upon such showing being made to the satisfaction of the commission, it shall make an award in favor of the employer or employers who have paid the original award, payable out of the fund used for payment of the additional compensation provided for in Section 4751 of this code, in an amount equal to the unreimbursed portions of the original payment or payments to which such employer or employers are found entitled as aforesaid. The use of the fund for such reimbursement in addition to the purposes specified in Section 4751 of this code is hereby authorized. The Legislature finds that as a matter of public policy and public welfare, sufferers from silicosis [resulting from employment in underground metal mines] should be compensated for such disability; that due to the peculiar nature of this disease it often does not manifest itself until long after periods of exposure have expired; that this frequently results in disability occurring in or after the last of a series of employments where such exposure existed; [that underground metal mining is a class of industry having special character, both as to silicotic hazard and investment hazard; that the latter hazard has resulted in the past in closure of mines, disappearance or financial nonresponsibility of former owners or lessees of such mines and consequent inability of the commission to enforce against them compensation awards for proportionate liability in silicosis cases.] It is inequitable that total ultimate liability should fall on one or more such employers who happen to be solvent or have solvent insurance carriers within the commission's jurisdiction or in reach of its process. Therefore the Legislature finds that, to the extent that the commission determines that proper contributions to a joint and several award for compensation for silicosis cannot be enforced against an employer [who is or was engaged in underground metal mining for any of the above reasons,] it shall direct that contribution shall be paid, either directly or by way of reimbursing any employer or employers who have paid said award, by payment from the fund provided for in Section 4751 of this code. Such payments or reimbursement for payments the Legislature finds will protect employees [in the metal mining industry] and will promote the general public welfare [in mining communities.]

[(c) In making its determination in the supplemental proceeding for the purpose of determining an apportionment of liability or of a right of contribution of percentage liabilities of the various employers engaged in underground metal mining operations the commission shall consider as a rebuttal presumption that employment in underground work in any mine for a continuous period of more than three calendar months will result in a silicotic exposure for the employee so employed during the period of employment if the underground metal mine was driven or sunk in rock having a composition which will result in dissemination of silica or silicotic dust particles when drilled, blasted or transported.

Any employer shall be entitled to rebut such presumption by showing to the satisfaction of the commission, or its referee, that the mining methods used by the employer in the employee's place of employment did not result during his employment in the creation of silica dust in sufficient amount or concentration to constitute a silicotic hazard. Dust counts, competently made, at such intervals and in such locations as meet the requirements of the Division of Industrial Safety for safe working conditions may be received as evidence of the amount and concentration of silica dust in the workings where such counts have been made at the time when they were made. The commission may from time to time, as its experience may indicate proper, promulgate orders as to the frequency with which such dust counts shall be taken in different types of workings in order to justify their acceptance as evidence of the existence or nonexistence of a silicotic hazard in the property where they have been taken.]"

Vacancies occurring in the board of directors by reason of death, resignation or otherwise, shall be filled by appointment by the remaining directors in office, except that if the vacancy is that of an appointed director, the appointing body shall appoint a successor. A director so appointed shall hold office for the unexpired term of his predecessor. Within 10 days after receiving their respective certificates of election, or notice of appointment, each person who shall be elected or appointed to the office of director shall qualify as such by taking and subscribing an official oath of office and filing the same with the secretary of said district.

Sec. 16. The board of directors at their regular monthly meeting in [August] *September* of each year shall render and immediately thereafter cause to be filed with the secretary and posted conspicuously in the office of said district a verified statement of the financial condition of said district, showing in detail the receipts and disbursements during the last preceding year, together with the sources of said receipts and purposes of said disbursements. A summary of said statement shall be published at least once a week for two weeks in some newspaper published in said

district, and shall refer to the itemized statement filed and posted in the office of said district for further particulars.

For the purpose of rendering such statement, said district shall designate a certified public accountant who shall make an independent audit of the accounts and other evidences of financial transactions of the district during the preceding year. Such certified public accountant shall have no personal interest directly or indirectly in the financial affairs of said district.

SEC. 11. Section 26 of said act is amended to read:

Sec. 26. On the second Wednesday in March of each year, the engineering investigation and report shall be delivered to the secretary of said district in writing. Said secretary shall publish a notice of the receipt of such report *and of the public hearing to be held on the second Wednesday of April* in a newspaper of general circulation, printed and published within said district, at least 10 days prior to the date at which the public hearing regarding ground water conditions shall be held. Said notice, among other information which the district may provide therein, shall contain an invitation to all operators of water producing facilities within said district to call at the offices of said district to examine said engineering investigation and report.

There shall be held, by the board of directors, on the second Wednesday of April of each year, at the district offices a public hearing at which time any operator of a water producing facility within said district or any person interested in the condition of the ground water supplies of said district may in person or by representative appear and submit evidence concerning the ground water conditions of said district. Appearances, also, may be made supporting or protesting said written engineering investigation and report. Said board of directors shall, before the levy of the replenishment assessments, find and determine the average annual overdraft for the immediate past 10 water years; the estimated annual overdraft for the current water year; the estimated annual overdraft for the ensuing water year; the accumulated overdraft as of the last day of the preceding water year; the estimated accumulated overdraft as of the last day of the current water year; the amount of water which should be purchased for the replenishment of the ground water supplies of said district for the ensuing water year, and the sum of money necessary therefor.

Such finding and determination by said board shall be conclusive and binding upon all persons and parties.

SEC. 12. Section 29 of said act is amended to read:

Sec. 29. Each operator of a water producing facility within said district shall file with said district on or before the thirty-first day of January, 1955, and on or before the thirty-first day of July, 1955, and thereafter on a semiannual basis on or before the last day in January and July of each year, a [sworn] statement setting forth the total production in acre-feet of water for the preceding six months period (excluding the month in which the statement is due), a general description or number locating each water producing facility and the method or basis of the computation of such water production. *Said statement shall be verified by a written declaration that it is made under the penalties of perjury.* The replenishment assessment is payable to said district on or before the last date which the water production statements shall be filed and is computed by multiplying the production in acre-feet of water as disclosed in the statement, by the replenishment assessment rate.

If any operator of a water producing facility shall fail to pay the replenishment assessments when due, said district shall charge interest at a rate of 1 percent each month on the delinquent amount of the replenishment assessment.

Should any operator of a water producing facility fail to register each water producing facility or fail to file [in] *on or before the 31st day of January and the 31st day of July* of each year the water production statement, said district shall in addition to charging interest as provided herein assess a penalty charge against such operator in an amount of 10 percent of the amount found by said district to be due.

The board of directors may, at the time of fixing the replenishment assessment rate, provide by resolution that the operator of any water producing facilities having a discharge opening not greater than two inches in diameter and which do not provide domestic or irrigation water for an area in excess of one acre may pay a fixed amount as their replenishment assessment, in lieu of filing a sworn statement as to the production of ground water.

SEC. 13. Section 30 of said act is amended to read:

Sec. 30. Upon good cause shown an amended statement of water production may be filed or a correction of the records may be made at any time prior to the final date for filing the next semiannual water production statement.

[Any hearings or meetings held by said district or its board of directors as required by this act or in carrying out the provisions of this act may be continued or adjourned from time to time.]

Howard Williams—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending Section 16 of Article XX thereof, relating to the terms of office of the members of the State Water Board.

Referred to Committee on Governmental Efficiency.

**RESOLUTIONS**

The following resolution was offered:

By Senator Abshire:

**Senate Resolution No. 96**

Relating to the use of the Sonoma State Home for the custody of psychopathic delinquents

WHEREAS, Senate Concurrent Resolution No. 72 of the 1949 Session of the Legislature requested the Director of Mental Hygiene to investigate the situation existing at Sonoma State Home which had permitted several psychopathic delinquents to escape from said home and injure and murder several citizens of the State of California, and to ascertain and take such steps as might be necessary to make it impossible for any psychopathic delinquents to escape from said home; and

WHEREAS, Such resolution further requested the Director of Mental Hygiene, if he found that provision for maximum security at the Sonoma State Home was impossible or impractical, to designate some other state institution at which greater security could be provided for the commitment of psychopathic delinquents, and to transfer from Sonoma State Home such psychopathic delinquents to other state institutions; and

WHEREAS, After the adoption of such resolution, the Department of Mental Hygiene took steps to increase the security measures on portions of the premises

of Sonoma State Home by building a security fence around Paxton and Goddard Halls and posting guards on gates in such fence, and that, further, the Director of Mental Hygiene did designate another state institution as the proper institution for the retention of psychopathic delinquents; and

WHEREAS, Since the imposition of such security measures, it has come to the attention of the Legislature that although security measures had been increased by the building of a fence, such fence is not presently guarded nor are the gates locked, and escapes from such home occur with regularity, and one such escape has resulted recently in the killing of a resident of Sutter County; and

WHEREAS, Until the recent publicity given to the taking of the life of the citizen of the State of California by an escaped patient of the Sonoma State Home, the Legislature was informed and believed that there were no longer any psychopathic delinquents held or maintained at such home; and

WHEREAS, The citizens of the State of California, and especially those living in the Valley of the Moon area and areas contiguous to the Sonoma State Home, are much aroused by the most recent escape and the possibility of future escapes and attendant dangers therewith, and are demanding that a stop be made to such escapes; now, therefore, be it

*Resolved by the Senate of the State of California, That the Director of Mental Hygiene is respectfully requested to report to the Senate and the Legislature of the State of California the complete status of measures taken at the Sonoma State Home to increase the security of such home, and to report on the number of psychopathic delinquents kept or maintained at such home since the enactment of Senate Concurrent Resolution No. 72, above mentioned, together with the frequency of escapes from such institutions by both psychopathic delinquents and by mentally deficient and to report on the relative public dangers attendant upon escapes by both such classes of inmates; and be it further*

*Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the Governor, to the Director of Mental Hygiene, and to the Superintendent of the Sonoma State Hospital.*

## CHAPTER 2. IMPOSITION OF TAX

### Article 2. Floor Stocks Tax on Dealers

30130. For the privilege of making the sale of cigarettes, a floor stocks tax is hereby imposed upon every dealer at the rate of one and one-half mills (\$.00015) for each cigarette in his possession or under his control at 4 o'clock a.m. on July 1, 1955.

30131. The tax imposed by this article is due and payable on or before July 15, 1955.

30132. Each dealer, on or before July 15, 1955, shall file a report with the board in such form as the board may prescribe. The report shall state the number of cigarettes on hand at 4 o'clock a.m. on July 1, 1955, and the amount of tax due thereon. Each report shall be accompanied by a remittance payable to the board for the amount of tax due.

30133. All cigarettes which are in the possession or under the control of a dealer on and after July 15, 1955, and which have been reported as required by this article but for which no tax has been paid are subject to seizure and sale pursuant to Article 1 of Chapter 7.

### Article 3. Exemptions and Miscellaneous Provisions

30150. Any cigarette with respect to which a tax has once been imposed under this part shall not be subject upon a subsequent distribution to the taxes imposed by this part.

30151. Cigarettes sold under such circumstances that this State is without power to impose such tax are exempted from the taxes imposed by this part.

30152. The taxes imposed by this part shall not apply to the sale of cigarettes, except through vending machines, to the following listed instrumentalities of the armed forces of the United States organized under Army, Air Force, or Navy regulations and located upon territory within the State:

(a) Army, Air Force, and Navy exchanges.

(b) Officers', noncommissioned officers', and enlisted men's clubs or messes.

30153. The taxes imposed by this part shall not apply with respect to sales of cigarettes to agencies of the United States Government nor to sales of cigarettes for use out of the State.

30154. No tax under this part shall be imposed upon the sale of cigarettes by a distributor to a common carrier or to a person authorized to sell cigarettes on the facilities of such carrier. Wherever cigarettes are sold by distributors to common

carriers engaged in interstate or foreign passenger service for use or sale on facilities of the carriers, or to persons authorized to sell cigarettes on those facilities, the tax imposed by Section 30101 shall not be levied with respect to the sales of the cigarettes by the distributors, but a tax is hereby levied upon the carriers or upon the persons authorized to sell cigarettes on the facilities of the carriers, as the case may be, for the privilege of making such sales in California at the same rates as set forth in Section 30101. Such common carriers and authorized persons shall pay the tax imposed by this section and file reports with the board, as provided in Section 30301.

30155. The tax imposed by this part shall apply to the donation by the manufacturer or his agents of cigarettes as samples for advertising purposes. 30156. With respect to taxes resulting from a distribution of cigarettes within the meaning of subdivision (d) of Section 30006, the tax shall be paid by the consumer or user as provided in Section 30302.

30157. Distributors may add the amount of the taxes imposed by this part to the sales price thereof, and the distributor may state the amount of the tax separately from the sales price of such cigarettes on all price display signs, sales or delivery slips, and bills and statements. The provisions of this section do not affect the method of collection of the tax as provided by this part.

30158. Unless the contrary is established, it shall be presumed that all cigarettes manufactured in this State, or transported to this State and no longer in the possession of the distributor, have been distributed.

### CHAPTER 3. LICENSES, BONDS AND REGISTRATION

#### Article 1. Licenses and Bonds

30180. Every person desiring to engage in the sale of cigarettes as a distributor, except a person who desires merely to sell or accept orders for cigarettes which are to be transported from a point outside this State to a consumer within this State, shall file with the board an application, in such form as the board may prescribe, for a distributor's license. The application shall be accompanied by a license fee of one dollar (\$1) payable to the board.

30181. Every applicant for license as a distributor shall file with the board, in such form as the board prescribes, a bond or bonds executed by him as principal and a corporation such as is mentioned in Section 1056 of the Code of Civil Procedure in this State as surety, payable to the people of the State of California, conditioned upon the payment of all taxes, penalties, and other obligations of the distributor arising under this part.

30182. The board shall fix the total amount of the bond or bonds required of any taxpayer and may increase or reduce the amount at any time.

30183. Every bond shall contain a provision substantially that when the surety exercises his right to withdraw as surety the withdrawal shall be effective on the first day of the calendar month after receipt of the notice by the board if the notice is received on or before the fifteenth day of the month, otherwise the withdrawal shall be effective on the first day of the second calendar month after receipt of the notice by the board.

30184. The license of any distributor shall be automatically suspended upon cancellation of his bond, or if the bond becomes void or unenforceable for any reason, or if the distributor fails to pay any taxes or penalties due under this part. The license shall be automatically reinstated if the distributor files a valid bond, or pays his delinquent taxes, as the case may be.

Upon the petition of any distributor whose license has been suspended under this section, a hearing shall be afforded him after five days notice of the time and place of hearing.

30185. In lieu of a bond or bonds a distributor, under such conditions as the board may prescribe, may deposit with the State Treasurer an amount of lawful money equivalent to the amount of the bond or bonds or he may deposit bonds or other obligations of the United States, the State of California, or any county or city and county of this State of an actual market value not less than the amount of the bond or bonds fixed by the board.

30186. Upon receipt of a certificate of the board setting forth the amount of a distributor's delinquencies, the State Treasurer shall pay to the board the amount so certified from the money deposited with him by the distributor or from the amounts received from the sale of bonds or other obligations deposited with the Treasurer by the distributor. Securities deposited with the State Treasurer which have a prevailing market price may be sold by him for the purposes of this section at private sale at a price not lower than the prevailing market price thereof.

30187. Whenever any distributor fails to comply with any provision of this part or any rule or regulation of the board prescribed and adopted under this part, the board upon hearing, after giving the distributor at least 10 days notice in writing specifying the time and place of hearing and requiring him to show cause why his

license should not be revoked, may revoke the license held by him. The notice may be served personally or by mail in the manner prescribed for service of notice of a deficiency determination. The board shall not issue a new license to a distributor whose license has been revoked unless it is satisfied that he will comply with the provisions of this part and the rules and regulations of the board.

30188. Any person required to obtain a license as a distributor under this chapter who engages in business as a distributor without a license or after a license has been canceled or revoked, and each officer of any corporation which so engages in business, is guilty of a misdemeanor.

#### Article 2. Registration

30210. Every distributor, except one to whom a license is issued under Article 1 of this chapter, shall register with the board and give the names and addresses of all agents operating in this State, the location of all distribution or sales houses or offices or other places of business in this State, and such other information as the board may require.

#### CHAPTER 4. COLLECTION AND LIEN OF TAX

30260. The taxes imposed and levied by Article 1 of Chapter 2 of this part shall be paid through the use of stamps. The board shall secure stamps of such designs and denominations as it may prescribe suitable to be affixed to packages and provide for the sale thereof to licensed distributors. Only licensed distributors shall affix and cancel stamps. On sales of revenue stamps the board shall allow as compensation for the services and expenses of distributors in the affixing and handling of such stamps a discount of three percent (3%) of the face value of any sale of one hundred dollars (\$100) or more; provided, that the distributor has complied with all of the provisions of this part. No discount shall be allowed on any sale of less than one hundred dollars (\$100) and stamps shall not be sold in blocks of less than one hundred (100) stamps.

30261. Distributors shall not sell, borrow, loan, buy or exchange unstamped cigarettes or stamps to, from or with other distributors.

30262. The board shall regulate and prescribe the manner of affixing and canceling stamps.

30263. Every distributor shall cause to be affixed on every package of cigarettes on which the tax required under Article 1 of Chapter 2 of this part has not previously been paid as evidenced by stamps affixed thereto, stamps of an amount equal to the tax due thereon before such person sells, offers for sale, uses, consumes, handles, removes or distributes such cigarettes in this State.

30264. Stamps shall be affixed to each package of cigarettes of an aggregate denomination not less than the amount of tax upon the contents therein, and shall be affixed in such manner as to be visible to the purchaser and that they cannot be removed from the package or container without being mutilated or destroyed.

30265. The board, if it shall determine that it is practicable in any case to permit licensed distributors to impress on or attach to each package of cigarettes, evidence of tax payment, by means of a metering machine, in lieu of stamps, may authorize any licensed distributor to use any metering machine approved by the board, such machine to be sealed by the board before being used and used in accordance with rules and regulations prescribed by the board. Any licensed distributor authorized by the board to affix evidence of tax payment to packages of cigarettes by means of a metering machine shall make a prepayment, allowing for the discount, if any, provided for herein and subject also to the same conditions as in the case of the sale of stamps, covering the amount of the tax for which the meter is set.

#### CHAPTER 5. REPORTS

30300. Every distributor shall file with the board on or before the fifteenth day of each month, a report in such form as the board shall prescribe. The report shall disclose the number of cigarettes on hand on the first and last days of the calendar month immediately preceding the month in which the report is required, and such information concerning the amount of stamps purchased, used, and on hand during the report period and any other information for the report period that the board may prescribe.

30301. On or before the fifteenth day of each month the common carriers and authorized persons specified in Section 30154 shall file with the board a report of the sales of tobacco products made by them on the facilities of the carriers in California in the calendar month immediately preceding the month in which the report is received, in such detail and form as the board may prescribe, accompanying the report with the amount of the tax due under Section 30154.

30302. The consumer or user specified in Section 30156 shall on or before the fifteenth day of the month following receipt of cigarettes file with the board a report of the amount of cigarettes received by him in the calendar month immediately preceding the calendar month in which the report is received, in such detail and form as the board may prescribe, accompanying the report with the amount of tax due.

30303. The board may require warehousemen to make such reports relating to the cigarettes handled by them as the board deems necessary for the purposes of administering this part.

30304. Any person who shall fail to file any report on the day when it shall be due, shall forfeit as a penalty, for each day thereafter until the report is filed, the sum of one dollar (\$1), to be collected in the manner provided in this part for the collection of penalties. The board, if satisfied that the failure to file any report required by this chapter on the day when it became due, was excusable, may remit the whole or any part of such penalty.

#### CHAPTER 6. DETERMINATIONS

30330. If any person fails to pay the tax required under this part the board shall make an estimate of the quantity of cigarettes sold, used, consumed, handled or distributed by such person in this State on which the tax was not paid. The estimate shall be based upon any information which is in the board's possession or may come in its possession. Upon the basis of this estimate the board shall compute and determine the amount required to be paid to the State, adding to the sum thus arrived at a penalty of an amount equal to the total tax computed, and interest on the amount of the tax at the rate of 1 percent for each 30 days or fraction thereof from the date the tax should have been paid until the date of payment.

30331. Promptly after making its determination the board shall give to the person written notice of the estimate, determination and penalty, the notice to be served personally or by mail; if by mail, service shall be made pursuant to Section 1013 of the Code of Civil Procedure.

#### CHAPTER 7. COLLECTIONS

##### Article 1. Seizure and Sale

Whenever the board shall discover any cigarettes, subject to tax under this part, and upon which the tax has not been paid or the stamps affixed as herein required, it is hereby authorized and empowered to seize and take possession of such cigarettes together with any vending machine or receptacle in which they are held for sale. Such seized cigarettes, vending machine or receptacle shall be deemed to be forfeited to the State.

30361. The board may, within a reasonable time after a seizure of cigarettes pursuant to this chapter, by a public notice at least five days before the day of sale, sell such forfeited cigarettes at a place to be designated by it and from the proceeds of such sale shall collect the tax due thereon and all other unpaid cigarette taxes found to be due by the board together with a penalty of an amount equal to the taxes due and interest at the rate of 1 percent for each 30 days or fraction thereof from the date the tax should have been paid until the date of payment and the costs incurred in such proceedings. The board shall pay the balance, if any, to the person in whose possession such forfeited cigarettes were found.

30362. The board, in lieu of the sale of cigarettes as provided in this chapter, may permit the person from whom any cigarettes were seized to redeem the cigarettes, and any vending machine or receptacle seized therewith, by the payment of the taxes due together with a penalty of an amount equal to the tax due thereon, interest on the amount of the tax at the rate of 1 percent for each 30 days or fraction thereof from the date the tax should have been paid until the date of payment, and the costs incurred in such proceeding, which total payment shall not be less than five dollars (\$5).

30363. The seizure and sale or redemption of cigarettes shall not be deemed to relieve any person from fine or imprisonment provided herein for violation of any provision of this part.

30364. When the board has good reason to believe that any cigarettes are being kept, sold, or offered for sale, in violation of the provisions of this part or its regulations it may make an affidavit of such fact, describing the place or thing to be searched, before a judge of any court in this State, and such judge shall issue a search warrant directed to the sheriff, any constable, police officer, or duly authorized agent of the board commanding him diligently to search any building, room, place, or vehicle as may be designated in the affidavit and search warrant, and to seize such cigarettes so possessed and to hold the same until disposed of by law, and to arrest the person in possession or control of the same. If upon the return of such warrant, it shall appear that any of the cigarettes, unlawfully possessed, were seized, the same shall be sold as provided in this part.

##### Article 2. Civil Action

30380. If any person is delinquent in the payment of any obligation imposed under this part, the board may transmit notice of the delinquency to the Attorney General who shall at once proceed by appropriate legal action to collect all sums due the State.

30381. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment is required.

30382. In the action a certificate by the board showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency of the amount of tax, interest and penalties set forth in the certificate, and of compliance by the board with all provisions of this part in relation to the assessment of the property and computation and levy of the tax.

#### CHAPTER 8. REFUNDS

30420. The board may issue regulations providing for the refund to distributors of the cost of stamps affixed to packages of cigarettes, which by reason of damage become unfit for sale or use and are destroyed by the distributor under the supervision of the board, or are returned to the manufacturer.

30421. The board is authorized to redeem any unused stamps purchased from it at the face value thereof less any discount allowed upon their purchase.

30451. The board may employ accountants, auditors, investigators, assistants, and clerks necessary for the efficient administration of this part and may designate representatives to conduct hearings, prescribe regulations, or perform any other duties imposed by this part or other laws of this State upon the board.

30452. Every distributor and every person dealing in, transporting, or storing cigarettes in this State shall keep such records, receipts, invoices, and other pertinent papers with respect thereto in such form as the board may require.

30453. The board or its authorized representative may examine the books, papers, records, and equipment of any person dealing in, transporting, or storing cigarettes and may investigate the character of the disposition which the person makes of the cigarettes in order to ascertain whether all taxes due under this part are being properly reported and paid.

30455. It is unlawful for the board or any person having an administrative duty under this part to make known in any manner whatever the business affairs, operations, or information obtained by an investigation of records and equipment of any person visited or examined in the discharge of official duty, or the amount or source of income, profits, losses, expenditures, or any particular thereof, set forth or disclosed in any report, or to permit any report or copy thereof or any book containing any abstract or particulars thereof to be seen or examined by any person. However, the Governor may, by general or special order, authorize examination of the reports by other state officers, by tax officers of another state, by the Federal Government, if a reciprocal arrangement exists, or by any other person.

Any violation of this section is a misdemeanor and is punishable by a fine not exceeding one thousand dollars (\$1,000), by imprisonment not exceeding one year, or by both in the discretion of the court.

## CHAPTER 2. REGULATION OF RAIN MAKING AND RAIN PREVENTION

4900. The public interest, health, safety, welfare, and necessity require that scientific experimentation in the field of artificial nucleation, and that scientific efforts to develop, increase, and regulate natural precipitation be encouraged, and that means be provided for the regulation and control of interference by artificial means with natural precipitation of rain, snow, moisture, or water in any form contained in the atmosphere, within the State, in order to develop, conserve, and protect the natural water resources of the State and to safeguard life and property.

4901. As used in this chapter:

"Person" means any person, firm, association, organization, partnership, company, corporation, private or public, county, city, city and county, district, or other public agency.

4902. No person, without first securing a license from the administration, shall cause or attempt to cause condensation or precipitation of rain, snow, moisture, or water in any form contained in the atmosphere, or shall prevent or attempt to prevent by artificial means the natural condensation or precipitation of rain, snow, moisture, or water in any form contained in the atmosphere.

4903. Any person desiring to do any of the acts specified in Section 4902 may file with the administration an application in writing for a license. Each application shall be accompanied by a filing fee fixed by the administration with the approval of the Department of Finance but not to exceed fifty dollars (\$50) and shall be on a form to be supplied for such purpose by the administration.

4904. Every application shall set forth all of the following:

(a) The name and post-office address of the applicant.

(b) The previous education, experience, and qualifications of the applicant, or, if the applicant is other than an individual, the previous education, experience, and qualifications of the persons who will be in control of and charged with the operations of the applicant.

(c) A general description of the operations which the applicant intends to conduct and the method and type of equipment that the applicant proposes to use.

(d) Such other pertinent information as the administration may require.

4905. Upon the filing of the application upon a form supplied by the administration and containing the information prescribed by this chapter and accompanied by the required filing fee the administration shall issue a license to the applicant entitling the applicant to conduct the operations described in the application for the calendar year for which the license is issued, unless the license is sooner revoked or suspended.

4906. A license may be renewed annually upon application to the administration, accompanied by a renewal fee fixed by the administration with the approval of the

Department of Finance but not to exceed twenty-five dollars (\$25), on or before the last day of January of the calendar year for which the license is renewed.

4907. Prior to undertaking any operation authorized by the license the licensee shall file with the administration and cause to be published a notice of intention. The licensee shall then confine his activities for that operation substantially within the time and area limits set forth in the notice of intention.

4908. The notice of intention shall set forth all of the following:

(a) The name and address of the licensee.  
(b) The nature and object of the intended operation and the person or persons on whose behalf it is to be conducted.

(c) The area in which and the approximate time during which the operation will be conducted.

(d) The area which will be affected by the operation as near as the same may be determined in advance.

4909. The applicant shall cause the notice of intention to be published at least once a week for three consecutive weeks in a newspaper having a general circulation and published within any county wherein the operation is to be conducted and in which the affected area is located, or, if the operation is to be conducted in more than one county or if the affected area is located in more than one county or is located in a county other than the one in which the operation is to be conducted, then such notice shall be caused to be published in like manner in a newspaper having a general circulation and published within each of such counties. In case there is no newspaper published within the appropriate county publication shall be made in a newspaper having a general circulation within the county.

4910. Proof of publication shall be filed by the licensee with the administration within 15 days from the date of the last publication of the notice. Proof of publication shall be by copy of the notice as published attached to and made a part of the affidavit of the publisher or foreman of the newspaper publishing the notice.

4911. Every licensee shall keep and maintain a record of all operations conducted by him pursuant to his license showing the method employed, the type of equipment used, the times and places of operation of the equipment, the name and post-office address of each person participating or assisting in the operation other than the licensee, and such other information as may be required by the administration, and shall report the same to the administration immediately upon the completion of each operation.

4912. Each licensee shall further prepare and maintain an evaluation statement for each operation which shall include a report as to estimated precipitation, defining the gain or loss occurring from nucleation activities, together with supporting data therefor. This statement, together with such other pertinent information as the administration may require, shall be sent to the administration upon request by the administration.

4913. Notwithstanding any provision of this chapter to the contrary, the administration may grant a licensee permission to undertake an emergency nucleation project, without compliance by the licensee with the provisions of Sections 4907 to 4910, inclusive, if the same appears to the administration to be necessary or desirable in aid of extinguishment of fires.

4914. Any license may be revoked or suspended if the administration finds, after due notice to the licensee and a hearing thereon, that the licensee has failed or refused to comply with any of the provisions of this chapter. The proceedings herein referred to shall be conducted in accordance with the provisions of the Administrative Procedure Act, Chapter 5, Part 1, Division 3, Title 2 of the Government Code, and the administration shall have all the powers granted therein.

4915. Any person who violates any provision of this chapter is guilty of a misdemeanor.

6064. The administrator may authorize the refund of moneys received or collected by the department in payment of fees, licenses, permits, tolls, or for rentals, property or services, wherein the license, permit, rental, property or service cannot lawfully be issued, furnished, or transferred to the person making the payment, or in cases where the payment in whole or in part represents overpayment or payment in duplicate.
